MTower

A camera that
Compatible with Yealink video devices
for front + center view

TRIPLE-EYE, SEVEN-MIC, AND AUTO-COVER.

MTower combines three **4K cameras** to deliver flawless coverage. The standout **telephoto lens**, with its 84.4° field of view, provides a clearer view for the one who seats at the subject seat, while the two 151° **wide-angle side cameras** ensure no participant is left out.

Triple eye view 322°

6+1 microphones, 6m pickup range

Magnetic levitation privacy shutter

Triple-eye camera

AI noise reduction

6m pickup range

Magnetic privacy shutter

BEST-VIEW SWITCHING AI FEATURE.

By placing a **Bar/Board** at the **front** of the room and the MTower **centrally** on the table, This AI feature can intelligently select and display the **optimal frontal view** of each participant, ensuring that the image consistently provides the best perspective. You ensure a consistent **face-to-face** view during conversations between in-room and remote participants.

Qualcomm 8550 processor

Front + center view

MTower

MVC S40 PLUS

Yealink now offers full support for the **S40 Plus bundle**, including the **SmartVision 40**, **MCore Pro**, **MTouch E2**, and **MTower**. With this all-in-one solution, you can enjoy a more **intelligent, effortless face-to-face meeting** experience while seamlessly integrating into the Yealink ecosystem.

FLEXIBLE DEPLOYMENT, TWO SOLUTIONS

Our MTower now supports direct **single-cable connections** to video conferencing devices, making wiring **simpler** for small meeting rooms. Coming soon: **dual MTower coverage** for seamless connectivity in larger spaces.

For small to medium meeting rooms

For medium meeting rooms
