

IFP63 Series

Commercial Touch Display User Guide

IMPORTANT: Please read this User Guide to obtain important information on installing and using your product in a safe manner, as well as registering your product for future service. Warranty information contained in this User Guide will describe your limited coverage from ViewSonic® Corporation, which is also found on our web site at <http://www.viewsonic.com> in English, or in specific languages using the Regional selection box of our website.

Model No. VS20634 | VS20635 | VS20636
P/N: IFP6563-1C/2C | IFP7563-1C/2C | IFP8663-1C/2C

Thank you for choosing ViewSonic®

As a world-leading provider of visual solutions, ViewSonic® is dedicated to exceeding the world's expectations for technological evolution, innovation, and simplicity. At ViewSonic®, we believe that our products have the potential to make a positive impact in the world, and we are confident that the ViewSonic® product you have chosen will serve you well.

Once again, thank you for choosing ViewSonic®!

Safety Precautions

Please read the following **Safety Precautions** before you start using the device.

- Keep this user guide in a safe place for later reference.
- Read all warnings and follow all instructions.
- Do not use the device near water. To reduce the risk of fire or electric shock, do not expose the device to moisture.
- Never remove the rear cover. This display contains high-voltage parts. You may be seriously injured if you touch them.
- Avoid exposing the device to direct sunlight or other sources of sustained heat.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other devices (including amplifiers) that may increase the temperature of the device to dangerous levels.
- Use a soft, dry cloth to clean the external housing. For more information, refer to the "Maintenance" section.
- When moving the device, be careful not to drop or bump the device on anything.
- Do not place the device on an uneven or unstable surface. The device may fall over resulting in an injury or a malfunction.
- Do not place any heavy objects on the device or connection cables.
- If smoke, an abnormal noise, or a strange odor is present, immediately turn the device off and call your dealer or ViewSonic®. It is dangerous to continue using the device.
- The device is a monitor with an LED backlight intended for general office use.
- Do not attempt to circumvent the safety provisions of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade and the third prong are provided for your safety. If the plug does not fit into your outlet, obtain an adapter and do not attempt to force the plug into the outlet.
- When connecting to a power outlet, DO NOT remove the grounding prong. Please ensure grounding prongs are NEVER REMOVED.
- Protect the power cord from being treaded upon or pinched, particularly at the plug, and at the point where it emerges from the equipment. Ensure that the power outlet is located near the equipment so that it is easily accessible.

- Only use attachments/accessories specified by the manufacturer.
- When a cart is used, use with caution when moving the cart/equipment combination to avoid injury from tipping over.
- Disconnect the power plug from the AC outlet if the device is not being used for a long period of time.
- Place the device in a well-ventilated area. Do not place anything on the device that prevents heat dissipation.

- Refer all servicing to qualified service personnel. Service will be required when the unit has been damaged in any way, such as:
 - » if the power supply cord or plug is damaged
 - » if liquid is spilled onto or objects fall in the unit
 - » if the unit is exposed to moisture
 - » if the unit does not operate normally or has been dropped

IMPORTANT

To ensure the optimal performance and longevity of your display, it is essential to follow the recommended handling, mounting, and storage procedures. Placing the display in a horizontal position can lead to a range of potential issues, including:

- Excessive stress on the display's structural components, resulting in the formation of cracks or distortions along the edges.
- Uneven weight distribution, which can cause the screen to warp, sustain internal damage, or crack over time.
- Thermal-related damage, as the internal components may not be able to dissipate heat as intended, leading to potential failure or permanent damage.

Furthermore, altering the display's form can also compromise the integrity of its internal components, including the sensitive LCD cells, which can result in a permanent degradation of the display's quality.

To prevent such issues and maintain the display's optimal condition, it is recommended to always mount, handle, transport, and store it in a vertical position. Failure to do so may void the warranty and compromise the display's performance and lifespan.

Note: Any damage resulting from the misuse or improper handling of the display is not covered under warranty.

Wall Mount Kit Specifications (VESA)

Note: The following illustration is for instructional purpose only. For details, please refer to the actual product and follow the instructions in the wall mount installation guide to install your wall mount. If attaching to other building materials, please contact your local reseller.

Model	VESA Spec. (A x B)	Standard Screw (C x D)	Quantity
IFP6563	600 x 400 mm	M8 x 25 mm	4 Pieces
IFP7563	800 x 400 mm		
IFP8663	800 x 600 mm		

Note:

- Do not use screws that are longer than the standard dimension, as they may cause damage to the inside of the display.
- Only mount the display in landscape orientation. Never mount in a portrait orientation.

Product Overview

Front Panel

Rear Panel

Control Panel

Number	Item	Description
1		• Press to turn on the display. • Once on, press again to turn on or off the backlight only. • Once on, press and hold to turn off the display.
2		Remote control IR receiver.
3		Ambient light sensor.

Front I/O

Number	Item	Description
1		NFC reader.
2	 (TYPE C 2)	• USB Type C input. • USB 3.0 Gen 1 standard. • Supports DP v. 1.2 with audio, video, and touch. • Supports LAN by 10M/100M. • Supports power charge up to 65W. Power charge supported: 5V/3A, 9V/3A, 15V/3A, 20V/3.25A.
3	 HDMI 4	• HDMI input. • Connect to a computer with HDMI output, set-top box, or other video device. • Supports 4K display; HDMI v. 2.1; CEC.
4	TOUCH 3	• USB Type B • Touch signal output to external computer • After connection (with an external computer), the device connected to the USB port can directly be used by the external computer Note: Pairs with the HDMI 4 port next to it.
5	USB	• USB Type A input. • USB 3.2 Gen 1 standard. • Connect USB devices such as hard disks, keyboard, mouse, etc. • Automatically switches between the external computer and display.

Rear I/O

Number	Item	Description
1	USB	• USB Type A input. • USB 2.0 standard. • For ViewBoard source only.
2	TOUCH 2	• USB Type B • Touch signal output to external computer • After connection (with an external computer), the device connected to the USB port can directly be used by the external computer Note: Pairs with the HDMI 3/DP port.
3	RS232	Serial interface; used for mutual transfer of data between devices.
4	DP	• DisplayPort input (v. 1.2). • Supports 4K display.
5	LAN	• Standard RJ45 (10M/100M/1000M) Internet connection interface. • Features hub support for network sharing.
6	SPDIF	Multichannel sound via optical signals.

Side I/O

Number	Item	Description
1	AUDIO IN	External computer audio input.
2	AUDIO OUT	Audio output to an external speaker/headset.
3	OUT  (Type C Out)	• USB Type C output. • Connect to devices with USB Type C input. Supports 1080p and 4K @ 60 Hz. • Supported by select models.
4	USB	• USB Type A input. • USB 3.0 Gen 1 standard. • Connect USB devices such as hard disks, keyboard, mouse, etc. • Automatically switches between the external computer and ViewBoard.
5	MICRO SD	Data only, up to 512 GB.
6	HDMI OUT	• HDMI output. • Connect to a computer with HDMI input, set-top box, or other video device. • Supported by select models. Note: CEC and ARC are not supported.
7	TOUCH 1	• USB Type B. • Touch signal output to external computer. • After connection (with an external computer), the device connected to the USB port can directly be used by the external computer. Note: Pairs with the HDMI 1/2.
8	 HDMI 1	• HDMI input. • Connect to a computer with HDMI output, set-top box, or other video device. • Supports 4K display; HDMI v. 2.1; CEC; ARC.

Number	Item	Description
9	 HDMI 2/3	• HDMI input. • Connect to a computer with HDMI output, set-top box, or other video device. • Supports 4K display; HDMI v. 2.1; CEC.
10	 (Type C 1)	• USB Type C input. • USB 3.0 Gen 1 standard. • Supports DP v. 1.2 with audio, video, and touch. • Supports LAN by 10M/100M. • Supports power charge up to 65W. Power charge supported: 5V/3A, 9V/3A, 15V/3A, 20V/3.25A, 20V/5A.

Remote Control

Button		Description	
1	Power	Turns the display on or off.	
2	Screenshot	Takes a screenshot.	
3	Home	Returns to the Home screen	
4	Return	Returns to the previous screen.	
5	Volume	Increases or decreases the volume level.	
6	Keypad	Number keypad.	
7	Information	Opens the information menu.	
8	Input Source	Selects the input source.	
9	Media Control	Red	Play/Pause
		Green	Stop
		Yellow	Forwards
		Blue	Backwards
10	Settings	Opens the settings menu.	
11	Navigation	Selects an item or adjusts the value in the menu.	
12	Freeze	Freezes the screen.	
13	Mute	Stops audio output.	
14	Brightness	Increases or decreases the brightness level.	
15	Blank	Blanks the screen.	
16	Aspect Ratio	Changes the aspect ratio.	

Installing the Batteries

(1)

(2)

(3)

1. Open the battery compartment by removing the battery cover.
2. Insert two AAA batteries, ensuring correct polarity.
3. Replace the battery cover until it clicks into place.

Note:

- Store the remote control and batteries away from heat and humidity.
- Use only recommended battery types.
- Remove batteries when not in use for extended periods.
- Dispose of old batteries following the manufacturer's instructions and local regulations.

Receiver Range

The working range of the remote control is shown here. It has an effective range of 8 m (19.69 ft), with a horizontal and vertical field of view of 30 degrees. Ensure there is nothing obstructing the remote control's signal to the receiver.

Using Gestures

Touch gestures allow the user to use pre-determined commands without using a keyboard or mouse. Using gestures on the display, the user can select/deselect objects, change the location of an object, access settings, erase digital ink, and much more.

Select and Deselect an Object (Clicking)

Press and release the display to select/deselect options or objects. This is like a single, standard left mouse click.

Display Menu Options (Right-Clicking)

Press and hold the display with your finger. This is like a single, standard right mouse click.

Double-Clicking

Quickly press and release twice in the same location on the display. This is like a double, standard left mouse click.

Moving an Object

Press and hold the object on the display and slowly drag it with your finger to your desired location.

Erasing Digital Ink

Use your flattened hand, palm, or fist on the display and move your hand across the area which you wish to erase.

Swipe Up for General Settings

Swipe up from the bottom of the display to open the settings.

Making Connections

Connecting to Power

1. Connect the power cord to the **AC IN** jack at the rear of the display.
2. Plug the power cord plug into a power outlet.

Connecting to Video Inputs and Enabling Touch

or

or

Computer

Your external device(s) can be connected in any of the following configurations.

USB Type C Connection

Connect a USB Type C cable from your external device to the display's USB Type C port.

HDMI Connection

1. Connect an HDMI cable from your external device to the **HDMI 1/2/3/4** port on the display.
2. Connect a USB Type B to USB Type A cable to the external device from the appropriate **TOUCH** port of the display.

Note:

- The **TOUCH 1** port is for the **HDMI 1/HDMI 2** port.
- The **TOUCH 2** port is for the **HDMI 3/DP** port.
- The **TOUCH 3** port is for the **HDMI 4** port.

DisplayPort Connection

1. Connect a DisplayPort cable from your external device to the **DP** port on the display.
2. Connect a USB Type B to USB Type A cable to the external device from the appropriate **TOUCH** port of the display.

Note:

- The **TOUCH 1** port is for the **HDMI 1/HDMI 2** port.
- The **TOUCH 2** port is for the **HDMI 3/DP** port.
- The **TOUCH 3** port is for the **HDMI 4** port.

RS-232 Connection

When you use a RS-232 serial cable to connect the display to an external computer or control system, certain functions can be controlled remotely such as: power on and off, volume adjustment, input select, brightness, and more.

USB Connection

Just like any PC, it is easy to connect various USB devices and other peripherals to the display.

USB Type A

Plug the USB device or storage drive into a **USB** port of the display.

USB Type C

Plug the USB device or storage drive into a USB Type C port of the display.

Network Connection

To connect to a local network, connect an Ethernet cable to your network, then connect the other end to a **LAN** port of the display.

Media Connection

To connect to a media source:

1. Connect an HDMI cable to an **HDMI** port on the display and peripheral device.
2. Press the **INPUT** button on the remote control and switch to the HDMI input source.

Video Output

To output video via a display device:

1. Connect an HDMI cable to the HDMI IN port of your display device, then connect the other end to the **HDMI OUT** port of the display.
2. Press the **INPUT** button on the remote control and switch to the HDMI IN input source.

Audio Connection

The display supports **Audio In**, **Audio Out**, and **SPDIF**.

Audio In

To play audio from your external device through the display's speakers, connect one end of an audio cable to your external device, and the other end to the display's **AUDIO IN** port.

Audio Out

To play audio from the display through an external speaker, connect one end of an audio cable to the external speaker, and the other end to the display's **AUDIO OUT** port.

SPDIF Connection

To connect to an external sound system, connect an optical cable from the display's **SPDIF** port to your sound system's optical connector.

Optional Connections

Note: The following illustrations are for instructional purpose only. For details, please refer to the actual device.

The display comes with an **OPS Slot** as well as a **Wi-Fi Slot** for optional add-ons such as a slot-in PC (e.g., VPC-35) or Wi-Fi card (e.g., VB-WIFI-005).

Slot-in PC (OPS Slot) Installation

1. Remove the **OPS Slot** cover of the display.

2. Carefully insert the slot-in PC into the **OPS Slot** of the display.

3. Secure the slot-in PC to the display.

Wi-Fi Card (Wi-Fi Slot) Installation

1. Remove the **Wi-Fi Slot** cover of the display.

2. Carefully insert the slot-in Wi-Fi card into the **Wi-Fi Slot** of the display.

3. Secure the slot-in Wi-Fi card to the display.

Using the Display

Turning the Display On/Off

1. Make sure the power cord is connected, plugged into a power outlet, and the **Power Switch** is in the on position.

Note: The Power Switch is located at the bottom of the display.

2. Press the **Power** button on the display or remote control to turn on the display.
3. To turn the display off, press and hold the **Power** button.

Initial Launch Setup

When you first turn on your display, an initial setup wizard will launch.

1. Choose your preferred Language.

2. Adjust accessibility features as needed.

3. Setup and connect to a network.

4. Set and adjust the Date and Time as needed.

5. Copy your apps and data from another device to the display.

- If you want a fresh start, tap **Don't copy**.
- To start copying and transferring your apps and data, tap **Next**.
 - » If you use a USB cable to copy and transfer data, connect the cable to your devices and follow the on-screen directions to start transfer.
 - » If you don't have a cable, tap **No cable?** to start transfer wirelessly.

Note: Before starting, make sure your another device is connected to power, turned on, and unlocked.

Transferring data with a USB cable

Transferring data wirelessly

6. Sign in with a Google account, or tap **Skip** to continue without signing in.

7. Accept or decline the Google services.

8. Set a PIN to setup a Screen lock. Then, tap **Next**, enter the PIN again, and tap **Confirm**.

Note: Personal Identification Number (PIN) helps prevent unauthorized use of the display. It is strongly recommended to set a pin for each of the owner profiles as only owners can manage access to the display(s) and more.

Set a PIN

PIN must be at least 4 digits, but a 6-digit PIN is recommended for added security

[Screen lock options](#)

Next

9. Select **Enable Device Owner Permissions** to confirm the ownership and gain access to the advanced features on mydisplay Manager. Then, tap **Next**.

Manager Permission

☒ Enable Device Owner Permissions

Selecting this option provides access to advanced features within Manager.

Next

10. Select the preferred boot up mode, then tap **Next**.

11. Select the preferred Operating System (OS) launcher.

- Select **Enable ViewBoard Launcher** for the ViewBoard launcher scheme.
- Deselect **Enable ViewBoard Launcher** for the Android launcher scheme.

Note: You can always switch to the other launcher scheme later in the **System** settings. Go to “ViewBoard Settings” for more details.

Android Launcher (Scheme A)

ViewBoard Launcher (Scheme B)

12. Accept or decline the Privacy and Copyright Protection terms. Then, tap **Finish** to complete the initial setup.

Home Screen

Note: The Home Screen layout varies between the two Launchers. Use the following display Launcher example as a general reference only.

On the Home Screen select from **Use as Guest** and **Sign In**.

How to Sign Up

Select the **How to Sign Up** button at the bottom of the screen, then scan the QR code and follow the directions to log in.

Use as Guest

Select the **Use as Guest** button to log in with a guest account.

Note: Please note that user settings cannot be saved when logging in with a guest account.

Sign In

Select the **Sign In** button to log in with various accounts.

Home Screen Message

The Home Screen message can be edited by selecting it directly on the Home Screen.

Additionally, a password can be set by selecting the **Set Up Password** button.

Toolbar

The Toolbar is where applications and tools can be found. Trigger icons are on the right, left, and bottom edge of the screen for quick access.

To launch an application or tool:

1. Tap a Toolbar trigger icon.
2. Tap on your desired application or tool.

Note: The default Toolbar setting is to be available for all input sources; however, users can go to: **Settings > Preference > Toolbar settings** to adjust the options: (1) Show side Toolbar, (2) Hide side toolbar, (3) Disable in all input sources.

Toolbar Icons

Icon	Description
 Return	Return to the previous operation screen. Note: Only for the display source.
 Home	Return to the Home Screen.
 Recent	Display all currently open applications.  Select the small frame to display in a PIP window.  Note: Selecting the “X” will close the application.
 Applications	View all installed applications.
 File Folder	Browse and open files.

Icon	Description
 Tools	Quickly view and adjust various frequently used tools.
 Marker	Annotate with underlying, highlighting, and more. Note: Pick up the Touch Pen to turn on Marker .
 Input Source	Select and change the input source signal.

On-Screen Display (OSD) Menu - General Settings

Access **Input**, **Display**, and other general settings through the OSD Menu.

Input Settings

Display Settings

Open the OSD Menu by pressing **INPUT** on the remote control or tapping the **Input Source** icon.

The **Input Sources** setting can also display by tapping the signal source icon.

Input Settings

To select an input source:

1. Press **INPUT** on the remote control or tap the **Input Source** icon to display the **Input Settings** menu.
2. Press the **Navigation** buttons (**↑/↓/←/→**) on the remote control to select the input source you want.

Note: The PC source will only be visible when a slot-in computer is installed.

3. Press **ENTER** on the remote control, or tap the desired input source.
4. Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

To adjust the brightness:

1. Press **INPUT** on the remote control or tap the **Input Source** icon to display the **Input Settings** menu.
2. Drag the brightness slider directly to adjust the backlight value.
3. Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

To adjust the volume:

1. Press **INPUT** on the remote control or tap the **Input Source** icon to display the **Input Settings** menu.
2. Drag the volume slider directly to adjust the value, or press the **Volume** buttons on the remote control to adjust. Additionally, pressing **Mute** on the remote control will mute/unmute the volume.
3. Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

Display Settings

To adjust the display settings:

1. Press **INPUT** on the remote control or tap the **Input Source** icon to display the **Input Settings** menu. Then select the **Display** tab.
2. Press the **Navigation** buttons (**↑/↓/←/→**) on the remote control to select the menu option you want.
3. Press **ENTER** on the remote control to confirm or press the **Navigation** buttons (**←/→**) to adjust the menu option. Additionally, tap/adjust the menu option directly.
4. Press **BACK** on the remote control, or tap a blank area outside of the menu to exit.

Display Settings - Menu Options

Item	Description	
Auto Brightness	Automatic brightness adjustment. Adjusts maximum brightness according to ambient light levels.	
Energy Saving	Enable to reduce power consumption.	
Eye Care	Adjusts the filter that blocks high-energy blue light for a more comfortable viewing experience.	
Picture Mode	Select a predefined picture setting.	
	Mode	Description
	Standard	Default picture mode.
	Bright	Maximizes the brightness of the display. This mode is suitable for environments where extra-high brightness is required (e.g., well-lit rooms).
	Soft	A high brightness level with lower contrast level.
	Custom	Customize the picture settings.
Brightness	Adjust the background black levels of the screen.	
Contrast	Adjusts the difference between the image background (black level) and the foreground (white level). Use this to set the peak white level after you have previously adjusted the Brightness setting to suit your selected input and viewing environment.	
Saturation	Adjust the amount of color present.	
Sharpness	A high value results in a sharper picture; a low value softens the picture.	
Color Temperature	Adjust the color temperature value.	

Eye Care

Eye Care blocks high-energy blue light for a more comfortable viewing experience.

Calculating Breaks

When viewing screens for extended periods, it is recommended to take periodic breaks from viewing. Short breaks of at least 10 minutes are recommended after one hour of continuous viewing.

Taking shorter, more frequent breaks are generally more beneficial than longer, less frequent breaks.

Focus Fatigue (20-20-20 Rule)

To reduce the risk of eye fatigue by constantly looking at the screen, look away from the screen at least every 20 minutes and gaze at a distant object (at least 20 feet away) for at least 20 seconds.

Looking at Distant Objects

While taking breaks, users can further reduce eye strain and dryness by focusing on objects that are further away from them for 10-15 seconds, then gaze at something up close for 10-15 seconds. Repeat this up to 10 times. This exercise reduces the risk of your eyes' focusing ability to "lock up" after prolonged computer work.

Eye and Neck Exercises

Eye Exercises

Eye exercises can help minimize eye strain. Slowly roll your eyes to the left, right, up, and down. Repeat as many times as needed.

Exercises for the eyes

(1) Keep the body and the head upright. Move the eyes up to look at the ceiling, then turn down to look at the floor.

(2) Move the eyes left and right slowly to look at objects on the two sides.

(3) Move the eyes to look at objects at the right upper direction and then right lower direction. Repeat for the left upper and left lower directions.

Neck Exercises

Neck exercises can also help minimize eye strain. Relax your arms and let them hang at your sides, bend forward slightly to stretch the neck, turn your head to the right and to the left. Repeat as many times as needed.

Applications

Much like any smart phone or tablet you can install several different applications.

Applications can be accessed from the Toolbar, directly from the Home Screen via shortcuts, or by selecting the **Applications** icon.

Note: The following included application descriptions are not a comprehensive list and will vary by the user.

Icon	Description
	<u>AirSync</u> Wirelessly mirror screens to a larger display.
	<u>myViewBoard Manager</u> Remotely manage multiple installations of ViewSonic devices.
	<u>myViewBoard Whiteboard</u> A digital whiteboarding application.
	<u>Settings</u> Access the System Settings.

ViewBoard Settings

ViewBoard Launcher

Wireless & Network

Check current network connection status, set up and manage **Wi-Fi**, **Ethernet**, **Bluetooth**, and **VPN**, and establish a **Wireless hotspot**.

Note:

- **Wi-Fi**, **Wireless hotspot**, and **Bluetooth** settings will appear when an optional Wi-Fi card (e.g., VB-WIFI-005) has been installed in the Wi-Fi slot.
- **Ethernet** will disable automatically when **Wi-Fi** is enabled. **Wi-Fi** will disable automatically when **Ethernet** is enabled. Wi-Fi will disable when **Wireless hotspot** is enabled.
- The device cannot connect to the Internet when **Wireless hotspot** is enabled.

Wi-Fi

Setup, manage wireless access points, and share internet connection by hotspot.

- Tap the toggle button to turn Wi-Fi **On** or **Off**.

- Once **On**, you can: **Add a Network**, view **Saved Networks**, **Refresh** the network list, or view **Advanced** settings.

- In **Advanced** settings, you can toggle **Network notifications On** or **Off** and view **Network card info**.

To share your internet connection with other devices.

1. Tap the toggle button to turn Wireless hotspot **On** or **Off**.

2. Tap **Set up** to set the Network name, Security, and Password.

A screenshot of the 'Set up hotspot' dialog. The title 'Set up hotspot' is at the top. Below it, there are three fields: 'Network name' with the value 'IFP5551', 'Security' with a dropdown menu showing 'wifi_security_wpa2', and 'Password' with a series of dots and an eye icon. Below the password field, there is a message: 'The password must have at least 8 characters.' At the bottom, there are 'Cancel' and 'Save' buttons.

Ethernet

Set the local network and proxy.

- Tap the drop down menu to connect/disconnect the Ethernet.

- You can adjust **Local network** and **Proxy** settings as well.

Bluetooth

Manage connections, set the device name and discoverability.

- Tap the toggle button to turn Bluetooth **On** or **Off**. Once **On**, users can select a listed device to pair and connect to, rename their device, remove a device.

VPN

Setup and manage Virtual Private Networks.

To create a VPN profile:

1. Go to: **Settings > Network & Internet > VPN** and tap **Add VPN**.

2. Key in the **Name**.

3. Select the VPN **Type**.

Display

Adjust the **Wallpaper**, **Protection**, and **HDMI Out** settings.

Wallpaper

Users can change their wallpaper with default images, or use their own by tapping the add icon and selecting the image file.

Protection

Set **HDCP & Copyright** on or off.

HDMI Out

Adjust the HDMI Out Resolution setting, enable video output, and mute/unmute the speakers when connected via HDMI Out.

Note:

- The **Disable ViewBoard Speakers when using HDMI Out** option box is not selected by default.
- Swipe up on the listed resolutions to see more supported resolutions.

Preference

View and adjust **Touch**, **Language**, **Keyboard & Input**, **Date & Time**, **Boot Mode & Advanced**, **Start up & Shut down**, and **Toolbar** settings.

Marker

Toggle **WriteAway** on or off for the Marker or myViewBoard whiteboard tool.

Touch

Adjust **Touch Settings** and toggle **Touch Sounds** and **Windows Ink** on or off.

Language

Adjust and choose the preferred language from the available languages.

Keyboard & Input Method

Enable/disable the visual keyboard and/or change the default input method.

Date & Time

Set the system time and format.

Item	Description
Automatic Date & Time	When enabled, the ViewBoard will automatically synchronize the date and time via the Internet.
Time Zone	Select the appropriate time zone.
Time Format	Choose from 12-hour or 24-hour time format. Simply toggle 24-hour format on or off.
Date Format	Select from the available date formats.

Boot Mode & Advanced Settings

Adjust the preferred boot up mode and set/reset a password.

Item	Description
Normal Mode	The embedded screen sharing apps will run normally.
Secured Mode	The embedded screen sharing apps will be removed.
Disable Embedded OS	The system will automatically reboot, and then the Embedded OS will not appear.
ViewBoard Settings Access Password	Toggle to lock/unlock the ViewBoard Settings.
Password for Protection	Modify the Boot mode and ViewBoard Settings entry password.
Local File Protection Policy	Choose how long to keep local storage files in the Folder application.
Color Correction	Color correct the ViewBoard display screen.

Item	Description
Non-ViewBoard OS Mode Side Toolbar Settings	Toggle to turn on or off the side toolbar for non-ViewBoard OS environment.
Reset ViewBoard	Reset the ViewBoard to its factory default settings.

Startup & Shutdown

Set the **Startup Input**, **Standby Mode**, **EnergyStar Mode**, **Black Screen After Startup**, **Power off Reminder** timer and **Schedule** settings.

< Preferences

Startup & shutdown

Startup input

☒ Last shutdown input ☐ Select input PC

Startup application
Automatically launch a specific application upon startup. N/A

Standby mode

☒ Hibernates
Hibernates Mode turns off the entire device including the display. To wake up, use the power button on the ViewBoard, the remote control, or use a compatible device via RS232.

☐ Sleep
Sleep Mode turns off the display and major functions of the device. The operating system will remain running. Wake up the ViewBoard using the power button on the ViewBoard or the remote control, or use a compatible device connected via RS232.

Energy Star ☒
After no action for one hour, device will enter standby mode as selected by the user (hibernate or sleep).

Black screen after startup ☐
To conserve power, screen backlight will not turn on after startup.

Sign-in page launched upon system startup ☐
Allows user to bypass the Sign-In page in Hibernates mode after the system is initiated.

Time switch

Power off reminder ☒
Toggle Power off reminder

Schedule ADD SCHEDULE

Boot time Off time

Item	Description
Startup Input	Adjust the Startup Input preference.
Startup Application	Open an application automatically when logging in.
Standby Mode	Decide what happens when you press the Power button while the ViewBoard is on.
Energy Star	Enable to automatically initiate Sleep Mode when the screen is idle for one hour.
Black Screen After Startup	When enabled, the ViewBoard will turn off the backlight automatically after booting up.

Item	Description
Sign-in Page Launched Upon System Startup	Enable to skip the sign-in screen when waking up the ViewBoard from Sleep Mode.
Time Switch	When enabled, the ViewBoard will turn off without a notification after a set period of time.
Schedule	Schedule a Boot and Shut off time.

Toolbar Setting

Adjust the Side toolbar settings.

[< Preferences](#)

Toolbar settings

Side toolbar settings

☒ Show side toolbar

☐ Hide side toolbar

☐ Disable in all input port sources

Sensor Settings

Set the **Motion sensor** and **Sensor data notification** settings.

Sensor Settings

Motion sensor ☒

Static power off interval

Sensor data notification ☒

Show temperature, Humidity, CO2, PM2.5 and VOC data

Multi-Window Mode

Enable/disable the **Multi-Window Mode**.

Multi-Window Mode

Multi-Window Mode ☐

Supports displaying more than one app at the same time, but may consume more energy.

Sound Setting

Output audio from the preferred output source.

Input Source

Adjust the input source names and settings, as well as the side toolbar settings.

Label Input Source

Set labels for each input source that will be easily recognized when displayed.

Label input source

Add a label to help you recognize input ports easier.

Source	Label	
ViewBoard	ViewBoard	
HDMI 1	HDMI 1	
HDMI 2	HDMI 2	
HDMI 3	HDMI 3	
HDMI 4	HDMI 4	
DP	DP	
TYPEC 1	TYPEC 1	
TYPEC 2	TYPEC 2	

Source

Toggle **Wake up by active HDMI input** or **HDMI CEC** on or off, and select one of the **Auto switch input ports** options.

Item	Description
Wake up by Active HDMI input	The screen will turn on automatically after plugging in an HDMI cable when the screen is off.
Auto Search Signal	When enabled, if the current source does not have a signal, the ViewBoard will automatically search for an input source.
Auto switch input ports	The original signal will automatically switch to a new cable after it's plugged in.
HDMI Version	Set HDMI Version.
Energy Saving	Set a time period to power off if no signal is detected.
HDMI CEC	Enable/disable HDMI CEC functions.

Apps

The user can view application information and force stop, uninstall, move to USB storage, clear data, clear cache, and clear defaults.

Note:

- Pre-loaded apps cannot be uninstalled.
- Not all apps support the move to USB storage feature.
- Not all apps support Clear Defaults.

Apps

View any running or installed applications.

- Selecting **All** will display all installed applications.

- Selecting **Download** will list all installed applications that can be uninstalled.

- Tapping on an application in the **Running/All/Download** panel will display further information about the application.

System

View and adjust **Storage**, **Clone to USB**, **Display ID**, **Security**, **System Update**, and **About device** settings.

Launcher Scheme

Choose between Scheme A (Android Launcher) and Scheme B (ViewBoard Launcher) to set the Home Screen layout.

Storage

Displays all internal and external storage capacities.

Clone to USB

Copy settings to an external USB drive.

Display ID

Assign a number to remote control the display by RS-232/LAN.

- To assign or change the Display ID, tap **Change** and input a number.

Note: The Display ID is for RS-232 users, and the range is 01~99.

Security

Review **Certificate**, **Trusted Credential** storage, and **Unknown sources** install settings.

- To manually install additional certificates, tap on the certificate from the list of the available **CA/User/Wi-Fi certificate** storages. Then, tap the file.

Note: You may be required to enter your PIN code again to confirm the action.

- Selecting **Clear Credentials** will remove all manually installed credentials.

1. Tap **Clear Credentials** > **OK**.

Note: Pre-loaded credentials cannot be cleared.

2. A confirmation message will appear when all credentials are removed.

- Under **Trusted Credentials** view and edit all trusted and installed CA certificates.

- Tapping on a credential will provide more detailed information.

- Allow the installation of applications from unknown sources by selecting the box under **Unknown source security**.

Note: Applications from unknown sources may not be compatible or work properly.

System Update

The ViewBoard automatically searches for software updates whenever connected to the Internet (OTA). With just one click, users can update their version of ViewBoard software.

Item	Description
Online Update	Manually check online for a new software version.
Schedule	Set the update time. Schedule Setup 217AM 3:18PM 419 ☐SUN☐MON☐TUE☐WED☐THU☐FRI☐SAT Cancel Submit

About Device

Display Embedded Player information, **Legal information**, and **Asset Tagging**.

- By selecting **Edit**, the asset information can be adjusted.

- Tap on **Legal information** to check open source licenses.

Android Launcher

Network & Internet

Check current connection status, set up and manage Wi-Fi, Ethernet, VPN, and wireless Hotspot.

Item	Description
Ethernet	Set the Ethernet network settings.
Internet	Set up and manage Ethernet and Wi-Fi connection, as well as Network preferences.
Airplane Mode	When enabled, all wireless communication will be turned off.
Hotspot & Tethering	Set and share your internet connection with other devices.
Data Saver	When enabled, most apps and services will get background data via an internet connection. Active apps will not be affected.
VPN	Set up and manage Virtual Private Networks.
Share Network	Enable to share the network with other USB connected devices.
Private DNS	Maintain an Automatic Private DNS or set one up manually for security and privacy.

Note:

- Wi-Fi, Hotspot, and Bluetooth settings will appear when an optional Wi-Fi card (e.g., VB-WIFI-005) has been installed in the Wi-Fi Slot.
- Ethernet will take priority when both Ethernet and Wi-Fi are enabled.
- The device can connect to the Internet when Hotspot is enabled.

Connected Devices

Set up and manage Bluetooth connections, saved devices, and connection preferences for Bluetooth, Casting, and Print Services.

Item	Description
Pair New Device	Enable Bluetooth to search for and connect to a Bluetooth device.
Saved Devices	View all previously connected Bluetooth devices. Note: Bluetooth will turn on.
Connection Preferences	View Bluetooth, Cast, and Print Service preferences and share files with nearby devices.
Audio & Video Devices	View all USB connected devices.

Apps

View any running or installed applications. Tap on them for more detailed information and options.

Item	Description
Recently Opened Apps	Any recently used applications will be listed here.
Default Apps	Set default applications for certain uses (e.g., default browser application).
Screen Time	Displays the total amount of time the ViewBoard has been in use by the day.
Cloud Media App	Set your cloud media items (e.g., photos, videos, etc.) locally on the ViewBoard.
Unused Apps	Applications that have not been used for a certain period of time will be listed here.
Special App Access	Set several access permissions for applications.

Notifications

Manage notification and conversation settings and preferences.

Item	Description
App Notifications	Set up notification settings for individual applications.
Notification History	View recent notifications.
Conversations	Set previously received notifications or messages as priority.
Bubbles	When enabled, conversations can appear as a floating icon on screen.
Device & App Notifications	Control which applications and devices can read notifications.
Notifications on Lock Screen	Choose to show all, some, or no conversations or notifications on the lock screen.
Do Not Disturb	Set notification preferences for when “Do Not Disturb” mode is turned on.
Flash Notifications	Set the screen or camera to light up every time a notification comes in.
Wireless Emergency Alerts	Choose to receive or not receive Emergency Alerts.
Hide Silent Notifications in Status Bar	When enabled, notifications that have been “silenced” will no longer appear in the status bar area.

Item	Description
Allow Notification Snoozing	When enabled, notifications can be “snoozed” for a short period of time for applications.
Notification Dot on App Icon	When enabled, a small dot will appear on the application icon when there is a new notification available.
Enhanced Notifications	When enabled, receive suggestions for actions, replies, etc.

Storage

Check the storage status of the ViewBoard.

Item	Description
Storage Manager	When enabled, the storage manager will remove backed up photos and videos.
Trash	View and manage files that have been moved to the Trash.
System	View the total storage space of system files.
Documents & Other	View and manage the Documents folder.
Games	View and manage the storage space used by gaming applications.
Apps	View and manage the storage space used by applications.
Audio	View and manage the Audio folder.
Videos	View and manage the Video folder.
Images	View and manage the Images folder.

Sound

Adjust the volume level and set up various sound preferences.

Item	Description
Media Volume	Adjust the volume level.
Do Not Disturb	Set sound preferences for when “Do Not Disturb” mode is turned on.
Live Caption	When enabled, automatically caption.
Media	Set the media player preferences.
Default Notification Sound	Choose the default sound effect for notifications.
Default Alarm Sound	Choose the default sound for alarms.
Tap & Touch Sounds	When enabled, a sound effect will play every time a touch or tap input is received.

Display

Adjust Brightness, Timeout, Theme, HDMI CEC, and other display related settings.

Item	Description
Lock Screen	Set lock screen preferences.
Screen Timeout	Set when the screen will lock after a period of inactivity.
Dark Theme	When enabled, the brighter default background color will be changed to a darker one.
Display Size and Text	Adjust the overall display size or only the text size.
Screen Saver	When enabled, a screen saver will play when the ViewBoard is not in use.

Wallpaper & Style

Adjust and personalize the Wallpaper, Colors and theme of the ViewBoard.

Item	Description
Change Wallpaper	Select a wallpaper for the background.
Dark Theme	When enabled, the brighter default background color will be changed to a darker one.
Themed Icons	Set a set of icons that match the style of the application icons on the Home Screen with your wallpaper.

Accessibility

View and adjust various tools that can help people with visual, auditory, speech, or physical disabilities use the ViewBoard.

Item	Description
Select to Speak	When enabled, certain on-screen items will be read or described aloud when tapped (e.g., text or image).
Switch Access	Allows the use of one or more switches (e.g., keyboard, controller, etc.) to control the ViewBoard.
TalkBack	When enabled, device actions will be described by audio so it can be used without looking at the screen.
Display Size and Text	Adjust the overall display size or only the text size.
Color and Motion	Apply color correction and inversion and enlarge the mouse pointer.
Extra Dim	Dim the screen for a more comfortable viewing experience.
Magnification	Zoom in on the screen to enlarge the content.
Accessibility Menu	Add a shortcut for a enlarged on-screen menu to control the device.
Timing Controls	Adjust how long temporary messages that ask for an action are on screen, enable Auto click, and adjust the touch and hold delay time.
System Controls	Adjust the way to navigate the system.
Live Caption	Set the live caption preferences.

Item	Description
Caption Preferences	Enable captions and adjust the size and style.
Audio Description	When enabled, an audio description of what is happening on screen in supported movies and shows will be given.
Flash Notifications	Set the screen or camera to light up every time a notification comes in.
Audio Adjustment	Combine audio channels into a single mono channel.
Accessibility Shortcuts	Adjust the shortcut settings and availability on the lock screen.
Text-to-Speech Output	When set up, text can be read out loud.

Security & Privacy

Review and adjust device security and privacy settings.

Item	Description
Device May Be at Risk	Scans regularly if the ViewBoard is safe from any harmful behaviors. Recommendations, and actions, will also be given to enhance the overall security and privacy.
Add Google Account	Add, remove, and manage your Google accounts linked to your ViewBoard.
App Security	Manage permissions for installed applications.
Device Unlock	Set the preferred options to lock/unlock the ViewBoard.
Account Security	Manage security permissions for all accounts on the ViewBoard.
Device Finders	Locate the ViewBoard remotely.
System & Updates	Check for system and security updates.
Privacy	Manage application access to your data (e.g., location or camera permissions, etc.)
More Security & Privacy	View and adjust additional security and privacy settings.
More Security Settings	View and adjust various security-related settings.

Location

View and manage location settings.

Item	Description
Use Location	When enabled, the location of the device will be accessible to applications.
Recent Access	Review which applications recently accessed the device’s location.
App Location Permissions	Review which applications have permission to access the device’s location.
Location Services	Turn on or off various alerts, services, and scanning related to location and location accuracy.

Passwords & Accounts

Review saved passwords, select autofill services, and add accounts.

Item	Description
Passwords	Review saved passwords.
Autofill Service	Select which autofill service to use, if any.
Accounts for Owner	Add or remove accounts.
Automatically Sync App Data	When enabled, applications can refresh data automatically.

Digital Wellbeing

Review the ViewBoard's usage time, and set up various tools to promote a better balance with the device.

Item	Description
Your Digital Wellbeing Tools	A brief overview of device usage, unlocks, and notifications.
Dashboard	Review screen time, number of notifications, and number of device unlocks.
Night Shift	Reduce the amount of blue light emitted by the ViewBoard's screen.
Manage Notifications	Review which applications can send notifications.
Do Not Disturb	Set notification preferences for when "Do Not Disturb" mode is turned on.
Heads Up	Set notification preferences when you're moving with the ViewBoard.
Show Icon in the App List	Hide or display the Digital Wellbeing icon from your app list.

Google

Review all of Google’s services and set up preferences.

Advanced

View and adjust various system settings.

Item	Description
Startup & Shutdown	Set the startup and shutdown settings.
Input Source	Adjust the input source names, HDMI CEC, and other input source settings.
Security Settings	Set a password for the ViewBoard or the advanced settings, or manage the permissions to install applications from unknown sources.
Pen Detection	Enable the Pen detection function.
Pen Detection App	Set the preferred app when the Touch Pen is detected.
HDMI Out Format	Se the preferred HDMI Out Resolution settings.

System

View and adjust various system settings.

Item	Description
Languages	Choose the preferred language and input method.
Launcher Scheme	Choose between Scheme A and Scheme B to set the Home Screen layout.
Sidebar	Adjust the side toolbar settings.
Keyboard	Enable/disable the visual keyboard and/or change the default input method.
Gesture	Set the preferred touch gestures when using the ViewBoard.
Date & Time	Set the date and time.
Windows Ink	Enable and set up Windows Ink support.
Display ID	Assign a number to remote control the display by RS-232/LAN.
Backup	With a Google account, back up the device's data.
ViewSonic System Update	Check for system updates.
Multiple Users	Review who is signed in and the available user logins.
Reset Options	Reset the ViewBoard to factory default settings.

About Device

Review device information.

Item	Description
Device Name	View the name of the device.
Legal Information	View the relevant legal information.
Model	View the model of the ViewBoard.
Android Version	View the installed version of Android.
IP Address	View the IP Address.
Ethernet Address	View the Ethernet Address.
Wi-Fi MAC Address	View the Wi-Fi MAC Address.
Device Wi-Fi MAC Address	View the Device Wi-Fi MAC Address.
Bluetooth Address	View the Bluetooth Address.
Up Time	View how long the device has been in operation.
Build Number	View the build number.

Tips & Support

Pre-installed Applications and Settings

AirSync

Wirelessly mirror screens to a larger display.

To share a screen to a ViewBoard with AirSync:

1. Open AirSync on the ViewBoard you want to share your screen to.
2. On the device you want to share the screen from, go to: <https://airsync.net>.
3. Enter the **Display Code** and **One Time Password** for the ViewBoard you wish to share to.

Note: The password refreshes every 30 seconds.

myViewBoard Manager

Remotely manage multiple installations of ViewSonic devices.

Once devices are set up and have myViewBoard Manager installed, they can be added to the entity and managed remotely from the Manager web application.

Note: Only available to Entity Admins from myviewboard.com after signing in.

Add a Device

On the device to manage:

1. Download and install myViewBoard Manager.
2. Open myViewBoard Manager and note the 6-digit PIN displayed.

In the myViewBoard Manager web application on myviewboard.com:

1. Click **Add Device**.
2. Input the 6-digit PIN obtained earlier.
3. Name the device (if applicable).
4. Click **Add**.

Note: To learn more about myViewBoard Manager, visit: https://myviewboard.com/kb/en_US/getting-started/overview-manager.

myViewBoard Whiteboard

A digital whiteboarding application.

Note: To learn more about myViewBoard Whiteboard, visit: https://myviewboard.com/kb/en_US/getting-started-whiteboard/overview-whiteboard.

Floating Toolbar

Item		Description
	Move	Move the Floating Toolbar.
	Present Mode	Switch between presentation and preparation modes.
	Paste from Clipboard	Insert the current clipboard content onto the canvas.
	Previous Page	Go to the previous page (if the canvas has multiple pages).
	Next Page	Go to the next page (if the canvas has multiple pages).
	New Page	Add a new canvas.
	Pages in Whiteboard	Create, select, rearrange, copy and delete pages.

Main Toolbar

Item		Description
	Screen Capture	Screenshot, video, and audio recording.
	Move	Select and hold to move the toolbar to the left side, right side, or bottom of the screen.
	File	Open, save, export, and print whiteboard files.
	Magic Box	Import resources (image, video, audio, etc.) to the whiteboard.
	Embedded Browser	Open the built-in browser to access internet resources, which can be dragged onto the canvas.
	Infinite Canvas	Drag to move the canvas. Use two hands to zoom in/zoom out. Select again for an overview.
	Selection	Select objects, text, and other elements on the canvas.
	Pen	Writing tools and customization options.
	Eraser	Erase objects or clear the page.
	Shapes and Lines	Draw shapes, arrows, and add tables.
	Text and Handwriting	Add a text box.
	Undo	Undo the previous action.
	Redo	Redo the previous action.

Background Management

Item		Description
	Sign In	Sign in to a myViewBoard account.
	Background Management	Change the canvas background.
	FollowMe Setting	Display custom images uploaded to a cloud storage account.
	Color Palette	Choose from solid or gradient colors as the background.
	Pre-installed	Choose backgrounds that come pre-installed with Whiteboard.
	myViewBoard Originals	Display original content created by myViewBoard.
	Local Hard Drive	Use images from the local hard drive.

RS-232 Protocol

This document describes the hardware interface and software protocols of RS-232 interface communication between the ViewSonic LED Display and computers or other control units with RS-232 protocol.

The protocol contains three command sections:

- Set-Function
- Get-Function
- Remote control pass-through mode

Note: Below, “PC” represents all the control units that can send or receive the RS-232 protocol command.

Description

RS-232 Hardware Specification

ViewSonic LFD communication port on the rear side:

1. Connector type: DSUB 9-Pin Male (female or 3.5 mm barrel connector)
2. Use of crossover (null modem) cable for connection
3. Pin Assignment:

Male DSUB 9-Pin
(preferred)

Female DSUB 9-Pin

3.5 mm barrel connector
(alternative for limited
space)

Pin #	Signal	Remark
1	NC	
2	RXD	Input to Display
3	TXD	Output from Display
4	NC	
5	GND	
6	NC	
7	NC	
8	NC	
9	NC	
frame	GND	

Item	Signal	Remark
Tip	TXD	Output from Display
Ring	RXD	Input to Display
Sleeve	GND	

LAN Hardware Specification

ViewSonic LFD communication port on the rear side:

1. Connector type: 8P8C RJ45
2. Pin Assignment:

Pin #	Signal	Remark
1	TX+	Output from Display
2	TX-	Output from Display
3	RX+	Input to Display
4	BI_D3+	For 1G case
5	BI_D3-	For 1G case
6	RX-	Input to Display
7	BI_D4+	For 1G case
8	BI_D4-	For 1G case
frame	GND	

RS-232 Communication Setting

- Baud Rate Select: 9600bps (fixed)
- Data bits: 8 bits (fixed)
- Parity: None (fixed)
- Stop Bits: 1 (fixed)

LAN Communication Setting

Type: Ethernet
Protocol: TCP/IP
Port: 5000 (fixed)
WOL Port: 9 (fixed) for UDP*3.2.0
Cross subnet: No
Logon Credentials: No

Command Message Reference

PC sends to LFD command packet followed by “CR”. Every time PC sends control command to Display, the Display shall respond as follows:

1. If the message is received correctly it will send “+” (02Bh) followed by “CR” (00Dh)
2. If the message is received incorrectly it will send “-” (02Dh) followed by “CR” (00Dh)

Protocol

Set-Function Listing

The PC can control the Display for specific actions. The Set-Function command allows you to control the Display behavior at a remote site through the RS-232 port. The Set-Function packet format consists of 9 bytes.

Set-Function Description:

Length:	Total Byte of Message excluding "CR"
LFD ID	Identification for each Display (01~98; default is 01) ID "99" means to apply the set command for all connected displays. Under such circumstances, only ID#1 display has to reply. The LFD ID can be set via the OSD menu for each Display.
Command Type	Identify command type, "s" (0x73h): Set Command "+" (0x2Bh): Valid command Reply "-" (0x2Dh): Invalid command Reply
Command:	Function command code: One byte ASCII code.
Value[1~3]:	Three bytes ASCII that defines the value.
CR	0x0D

Set-Function Format

Send: (Command Type="s")

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Byte Count	1 Byte	2 Byte	1 Byte	1 Byte	1 Byte	1 Byte	1 Byte	1 Byte
Bytes order	1	2~3	4	5	6	7	8	9

Reply: (Command Type="+" or "-")

Name	Length	ID	Command Type	CR
Byte Count	1 Byte	2 Byte	1 Byte	1 Byte
Bytes order	1	2~3	4	5

Note: When PC applies command to all displays (ID=99), only the #1 set needs to reply by the name of ID=1.

Example 1: Set Brightness at 76 for Display (#02) and this command is valid

Send (Hex Format)

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Hex	0x38	0x30 0x32	0x73	0x24	0x30	0x37	0x36	0x0D

Reply (Hex Format)

Name	Length	ID	Command Type	CR
Hex	0x34	0x30 0x32	0x2B	0x0D

Example 2: Set Brightness at 75 for Display (#02) and this command is NOT valid

Send (Hex Format)

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Hex	0x38	0x30 0x32	0x73	0x24	0x30	0x37	0x35	0x0D

Reply (Hex Format)

Name	Length	ID	Command Type	CR
Hex	0x34	0x30 0x32	0x2D	0x0D

Set-Function Table

A. Basic Function

Set Function	Length	ID	Command	Command	Value Range	Comments
			Type (ASCII)	Code (ASCII)	Code (Hex)	(Three ASCII bytes)
Power ON *3.2.1/ OFF (standby)	8		s	!	21	000: STBY 001: ON 1. The Power-on via LAN control may work only under specific modes. See display UG for details. *3.1.1 2. "WOL by MAC address" maybe available as an alternative.*3.2.1
Input Select	8		s	"	22	000: TV 001: AV 002: S-Video 003: YPbPr 004: HDMI1 014: HDMI2 024: HDMI3 034: HDMI4 005: DVI 006: VGA1 016: VGA2 026: VGA3 007: Slot-in PC (OPS/SDM)/HDBT 008: Internal memory 009: DP1 *3.2.4 023: DP2 019: Type-C 1 *3.3.2 039: Type-C 2 00A: Embedded/Main (Android) 1. No need for USB 2. For the case of two or more same sources, the 2nd digital is used to indicate the extension. 3. The HEX of 00A is 30 30 41. 4. 00Z is reserved for cycle mode *3.3.1 5. Using 2nd digi to identify DP or Type C. 0 and even numbers stand for DP; odd numbers stand for Type C *3.3.2
Brightness	8		s	\$	24	000 ~ 100 900: Bright down (-1) 901: Bright up (+1) *3.1.1
Backlight *3.2.0	8		A	B	42	000 ~ 100 1. For Android platform whose main mode is controlled by backlight and the other sources are controlled by brightness. 2. Derived from Color calibration. *3.2.0
Power lock	8		s	4	34	000: Unlock 001: Lock *See note in details
Volume	8		s	5	35	000 ~ 100 900: Volume down(-1) 901:Volume up(+1)
Mute	8		s	6	36	000: OFF 001: ON (mute)
Button lock	8		s	8	38	000: Unlock 001: Lock *See note in details
Menu lock	8		s	>	3E	000: Unlock 001: Lock *See note in details

Set Function	Length	ID	Command	Command	Value Range	Comments
Number *3.1.1	8		s	@	40	000~009
Key Pad *3.1.1	8		s	A	41	000: UP 001: DOWN 002: LEFT 003: RIGHT 004: ENTER 005: INPUT 006: MENU/(EXIT) 007: EXIT
Remote Control	8		s	B	42	000: Disable 001: Enable 002: Pass through
Restore default	8		s	~	7E	000

Disable: RCU will have no function

Enabled: RCU controls normally

Pass through: Display will bypass the RC code to connected device via the RS-232 port, but not react itself.

Note:**1. Behavior at Lock Modes**

Lock Mode	Behavior
Button Lock	1. Lock all buttons on the front panel and RCU, except for “Power” 2. All the SET functions should be workable via RS-232, even the ones with according hot key in RCU like Mute,...etc.
MENU Lock	1. Lock the “MENU’ key of front panel and RCU 2. The Factory and Hospitality modes should not be blocked for the model using MENU-combined key to enter these two modes. Alternative approach will be indicated separately if any limitation by model.
POWER Lock	1. Lock the “POWER” key on the front and RCU. 2. The SET_POWER ON/OFF should be workable via RS-232, but does not mean the POWER lock will be released under this case. 3. Can not be unlocked by reset in OSD setting 4. Will auto AC power-on in power-lock 5. Under power-lock, the set will not enter power saving when no PC signal and neither turn off when no other video signals after 15 minutes.
Remote Control Disable	Lock the RCU keys, but keep the front panel buttons workable.

2. Wake-on-LAN by MAC address as alternative for SET Power on

(Length=126 Bytes)

6 Bytes	6 Bytes (#1)	6 Bytes (#2)	...	6 Bytes (#16)	24 Bytes
0xFF FF ... FF	MAC address	MAC address	...	MAC address	0x00 00 ... 00

B. Optional Function

Set Function	Length	ID	Command	Command		Value Range	Comments
			Type (ASCII)	Code (ASCII)	Code (Hex)	(Three ASCII bytes)	
Contrast	8		s	#	23	000 ~ 100	
Sharpness	8		s	%	25	000 ~ 100	
Color	8		s	&	26	000 ~ 100	
Tint	8		s	'	27	000 ~ 100	
Backlight On_Off	8		s	(	29	000: OFF 001: ON	
Color mode	8		s	)	29	000: Normal 001: Warm 002: Cold 003: Personal	
Surround sound	8		s	-	2D	000: OFF 001: ON	
Bass	8		s	.	2E	000 ~ 100	
Treble	8		s	/	2F	000 ~ 100	
Balance	8		s	0	30	000 ~ 100	050 is central
Picture Size	8		s	1	31	000: FULL (16:9) 001: NORMAL (4:3) 002: REAL (1:1) *3.1.0

Get-Function Listing

The PC can interrogate the LFD for specific information. The Get-Function packet format consists of 9 bytes which is similar to the Set-Function packet structure. Note that the "Value" byte is always = 000.

Get-Function Description:

Length:	Total Byte of Message excluding "CR".
TV/DS ID	Identification for each of TV/DS (01~98; default is 01).
Command Type	Identify command type, "g" (0x67h) : Get Command "r" (0x72h) : Valid command Reply "- " (0x2Dh) : Invalid command Reply
Command:	Function command code: One byte ASCII code.
Value[1~3]:	Three bytes ASCII that defines the value.
CR	0x0D

Get-Function Format

Send: (Command Type="g")

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Byte Count	1 Byte	2 Byte	1 Byte	1 Byte	1 Byte	1 Byte	1 Byte	1 Byte
Bytes order	1	2~3	4	5	6	7	8	9

Reply: (Command Type="r" or "-")

If the Command is valid, Command Type = "r"

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Byte Count	1 Byte	2 Byte	1 Byte	1 Byte	1 Byte	1 Byte	1 Byte	1 Byte
Bytes order	1	2~3	4	5	6	7	8	9

If the Command is NOT valid, Command Type = "-"

Name	Length	ID	Command Type	CR
Byte Count	1 Byte	2 Byte	1 Byte	1 Byte
Bytes order	1	2~3	4	5

Example 1: Get Brightness from TV-05 and this command is valid. The Brightness value is 67.

Send (Hex Format)

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Hex	0x38	0x30 0x35	0x67	0x62	0x30	0x30	0x30	0x0D

Reply (Hex Format)

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Hex	0x38	0x30 0x35	0x72	0x62	0x30	0x36	0x37	0x0D

Example 2: Get Color from Display (#05), but the Color command is not supported by this model.

Send (Hex Format)

Name	Length	ID	Command Type	Command	Value1	Value2	Value3	CR
Hex	0x38	0x30 0x35	0x67	0x26	0x30	0x30	0x30	0x0D

Reply (Hex Format)

Name	Length	ID	Command Type	CR
Hex	0x34	0x30 0x35	0x2D	0x0D

Get-Function Table

A. Basic Function

Get Function	Length	ID	Command	Command		Response Range	Comments
			Type (ASCII)	Code (ASCII)	Code (Hex)	(Three ASCII bytes)	
Get-Brightness	8		g	b	62	000 ~ 100	
Get-Backlight *3.2.0	8		a	B	42	000 ~ 100	1. For Android platform whose main mode is controlled by backlight and the other sources are controlled by brightness. 2. Derived from Color calibration. *3.2.0
Get-Volume	8		g	f	66	000 ~ 100	
Get-Mute	8		g	g	67	000: OFF 001: ON (muted)	
Get-Input select	8		g	j	6A	000~ 100~	1. 1st digit for signal detection: 0 means "no signal"; 1 means "signal detected" 2. 2nd & 3rd digit: See Set-function table
Get-Power status: ON/ STBY	8		g	l	6C	001: ON 000: STBY	
Get-Remote control	S		g	n	6E	000: Disable 001: Enable 002: Pass through	Get RCU mode status
Get-Power lock	8		g	o	6F	000: Unlock 001: Lock	
Get-Button lock	8		g	p	70	000: Unlock 001: Lock	
Get-Menu lock	8		g	l	6C	000: Unlock 001: Lock	
Get-ACK	8		g	z	7A	000	This command is used to test the communication link
Get-Thermal	8		g	0	30	000~100: 0~+100 deg C -01~-99: -1~-99 deg C	
Get-Operation hour *3.2.0	8		g	1	31	000	1. Accumulated hours in 6-digit integer (000,001~ 999,999) *3.2.0 2. Can not be reset when FW update and Factory initiation *3.2.2 3. Reply in new 32-byte format *3.2.0
Get-Device name	8		g	4	34	000	Reply in new 32-byte format *3.2.0

Get Function	Length	ID	Command	Command		Response Range	Comments
Get-MAC address	8		g	5	35	000	(for the models with LAN) Reply in new 32-byte format *3.2.0
Get-IP address *3.2.0	8		g	6	36	000	(for the models with LAN) Reply in new 32-byte format *3.2.0
Get-Serial number *3.2.0	8		g	7	37	000	Reply in new 32-byte format *3.2.0
Get-FW version *3.2.0	8		g	8	38	000	Reply in new 32-byte format *3.2.0

Note:

1. Get Operation Hour example

Assumed the accumulated operation hour is 123,456 hrs

Send: 0x 38 30 31 67 31 30 30 30 0D (Get Operation hour)

Reply: 0x 32 30 31 72 31 31 32 33 34 35 36 00 00 ... 00 00 0D

2. Get Device Name example

Assumed the device name is CDE-5500

Send: 0x 38 30 31 67 34 30 30 30 0D (Get Device Name)

Reply: 0x 32 30 31 72 34 43 44 45 2D 35 35 30 30 00 00 ... 00 00 0D

Assumed the device name is "NMP-302#1"

Send: 0x 38 30 31 67 34 30 30 30 0D (Get Device Name)

Reply: 0x 32 30 31 72 34 4E 4D 50 2D 33 30 32 23 31 00 00 ...00 00 0D

3. Get MAC address example

Assumed the MAC address is 00:11:22:aa:bb:cc

Send: 0x 38 30 31 67 35 30 30 30 0D (Get MAC add)

Reply: 0x 32 30 31 72 35 30 30 31 31 32 32 61 61 62 62 63 63 00 00...00 00 0D

4. Get IP address example

Assumed the IP address is 192.168.100.2

Send: 0x 38 30 31 67 36 30 30 30 0D (Get IP address)

Reply: 0x 32 30 31 72 36 31 39 32 2E 31 36 38 2E 31 30 30 2E 32 00 00...00 00 0D

5. Get Serial number example

Assumed the Serial number is ABC180212345

Send: 0x 38 30 31 67 37 30 30 30 0D (Get Serial number)

Reply: 0x 32 30 31 72 37 41 42 43 31 38 30 32 31 32 33 34 35 00 00...00 00 0D

6. Get FW version example

Assumed the FW version is 3.02.001

Send: 0x 38 30 31 67 38 30 30 30 0D (Get FW version)

Reply: 0x 32 30 31 72 38 33 2E 30 32 2E 30 30 31 00 00...00 00 0D

B. Optional Function

Get Function	Length	ID	Command	Command		Response Range	Comments
			Type (ASCII)	Code (ASCII)	Code (Hex)	(Three ASCII bytes)	
Get-Contrast	8		g	a	61	000 ~ 100	
Get-Sharpness	8		g	c	63	000 ~ 100	
Get-Color	8		g	d	64	000 ~ 100	
Get-Tint	8		g	e	65	000 ~ 100	
Get-Backlight On_Off	8		g	h	68	000: OFF 001: ON	
Get-PIP mode	8		g	t	74	000: OFF 001: PIP (POP) 002: PBP	
Get-PIP input	8		g	u	75	000 ~	See Set-input select
Get-Tiling Mode	8		g	v	76	000: OFF 001: ON	(for Video wall)
Get-Tiling Compensation	8		g	w	77	000: OFF 001: ON	(for Video wall) Bezel width compensation
Get-Tiling H by V monitors	8		g	x	78	01x~09x: H monitors 0x1~0x9: V monitors	(for Video wall) 1. 2nd digital for H monitors 2. 3rd digital for V monitors
Get-Tiling position	8		g	y	79	000: OFF 001~025	(for Video wall) Copy the screen of Position# to identified display
Get-Date: Year	8		g	2	32	Y00~Y00	Last 2 digits (20)17~(20)99
Get-Date: Month	8		g	2	32	M00~M00	2 digits
Get-Date: Day	8		g	2	32	D00~M00	2 digits
Get-Time: Hour	8		g	3	33	H00~H00	24-hr format. 2 digits
Get-Time: Min	8		g	3	33	M00~M00	2 digits
Get-Time: Sec	8		g	3	33	S00~S00	2 digits

Note:**1. Get Date example**

Assumed the current date of display#01 as below:

Date: 2017-3/15

Send: 0x 38 30 31 67 32 59 30 30 0D (Get Date:Year)

Reply: 0x 38 30 31 72 32 59 31 37 0D ("Y17")

Send: 0x 38 30 31 67 32 4D 30 30 0D (Get Date:Month)

Reply: 0x 38 30 31 72 32 4D 30 33 0D ("M03")

Send: 0x 38 30 31 67 32 44 30 30 0D (Get Date:Day)

Reply: 0x 38 30 31 72 32 44 31 35 0D ("D15")

2. Get Time example

Assumed the current time of display#01 as below:

Time: 16:27:59

Send: 0x 38 30 31 67 33 48 30 30 0D (Get Time:Hour)

Reply: 0x 38 30 31 72 33 48 31 36 0D ("H16")

Send: 0x 38 30 31 67 33 4D 30 30 0D (Get Time:Min)

Reply: 0x 38 30 31 72 33 4D 32 37 0D ("M27")

Send: 0x 38 30 31 67 33 53 30 30 0D (Get Time:Sec)

Reply: 0x 38 30 31 72 33 53 35 39 0D ("S59")

3. Get RS232 version example

Assumed the version is 3.0.1

Send: 0x 38 30 31 67 36 30 30 30 0D (Get RS232 version)

Reply: 0x 38 30 31 72 36 33 30 31 0D ("301")

C. Auto Reply *3.2.1

The display will send out the updated data/status automatically without GET query from the host whenever the following data/status is changed by the user through any of the available ways like: remote control unit, front control panel keys, or touch screen.

- Power On/Off
- Input Select
- Brightness
- Backlight
- Volume
- Mute On/Off

Remote Control Pass-through Mode

When the PC sets the Display to Remote Control Pass through mode, the Display will send a 7-byte packet (followed by “CR”) in response to remote control unit (RCU) button activation.

In this mode the RCU will have no effect on the Display function. For example: “Volume+” will not change the volume of the Display, but instead only send the “Volume+” code to the PC over the RS-232 port.

IR Pass Through-Function format

Reply: (Command Type=“p”)

Name	Length	ID	Command Type	RCU Code1 (MSB)	RCU Code2 (LSB)	CR
Byte Count	1 Byte	2 Byte	1 Byte	1 Byte	1 Byte	1 Byte

Troubleshooting

This section describes some common problems that you may experience when using the ViewBoard.

Problem or Issue	Possible Solutions
Remote Control is not working	1. Check whether something is obstructing the display's remote control receiver. 2. Check whether the batteries in the remote control are installed correctly. 3. Check whether the batteries need to be replaced.
The unit turns off unexpectedly	1. Check whether Sleep mode is enabled. 2. Check if there is a power outage in your area. 3. Turn on the display and see if the problem is with the signal and control system.

PC Mode

Problem or Issue	Possible Solutions
No PC signal	1. Check the display settings. 2. Check the display resolution. 3. Adjust the Hs & Vs (synchronization) settings using the OSD menu.
Background streaking	1. Choose auto adjust. 2. Adjust clock and phase.
Unsupported format	1. Choose auto adjust. 2. Adjust clock and phase settings.

Touch Function

Problem or Issue	Possible Solutions
Touch function does not work	1. Check that drivers are installed correctly. 2. Reinstall driver(s). 3. Check setup and align it. 4. Check whether the touch pen is working properly.

Video Not Working Properly

Problem or Issue	Possible Solutions
No picture/ No sound	1. Check the Power status. 2. Check the signal cable. 3. Check that the internal PC is installed correctly.
Picture is unclear or cuts in and out	1. Check the signal cable. 2. Check if other electronics are interrupting the signal.
Poor picture	1. Adjust chroma, brightness, and contrast settings in the menu. 2. Check the signal cable.

Audio Not Working Properly

Problem or Issue	Possible Solutions
No sound	1. Press the Mute/Unmute button. 2. Adjust the volume. 3. Check the audio cable.
One speaker only	1. Adjust the sound balance in the menu. 2. Check the sound control panel settings of the computer. 3. Check the audio cable.

Maintenance

General Precautions

- Make sure the device is turned off and the power cable is unplugged from the power outlet.
- Never spray or pour any liquid directly onto the screen or case.
- Handle the device with care, as a darker-colored device, if scuffed, may show marks more clearly than a lighter-colored device.
- Do not use the system continuously for long periods of time.

Cleaning the Screen

- Wipe the screen with a clean, soft, lint-free cloth. This removes dust and other particles.
- If the screen is still not clean, apply a small amount of non-ammonia, non-alcohol based glass cleaner onto a clean, soft, lint-free cloth; then wipe the screen.

Cleaning the Case

- Use a soft, dry cloth.
- If the case is still not clean, apply a small amount of non-ammonia, non-alcohol based, mild non-abrasive detergent onto a clean, soft, lint-free cloth, then wipe the surface.

Disclaimer

- ViewSonic® does not recommend the use of any ammonia or alcohol-based cleaners on the display screen or case. Some chemical cleaners have been reported to damage the screen and/or case of the device.
- ViewSonic® will not be liable for damage resulting from use of any ammonia or alcohol-based cleaners.

Note: If condensation appears between the glass and the panel, keep the display turned on until the moisture disappears.

Regulatory and Service Information

Compliance Information

This section addresses all connected requirements and statements regarding regulations. Confirmed corresponding applications shall refer to nameplate labels and relevant markings on the unit.

FCC Compliance Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Contains FCC ID: GSS-VS20736

Industry Canada Statement

CAN ICES (B) / NMB (B)

Contains FCC ID: GSS-VS20736

Contains IC ID: 4280A-VS20736

CE Conformity for European Countries

The device complies with the EMC Directive 2014/30/EU and Low Voltage Directive 2014/35/EU, Radio Equipment Directive 2014/53/EU and RoHS2 Directive 2011/65/EU & Annex II EU/2015/863.

The full declaration of conformity can be found at the following website:

- https://www.viewsonicglobal.com/public/products_download/safety_compliance/IFP/VS20634_CE_DoC.pdf
- https://www.viewsonicglobal.com/public/products_download/safety_compliance/IFP/VS20635_CE_DoC.pdf
- https://www.viewsonicglobal.com/public/products_download/safety_compliance/IFP/VS20636_CE_DoC.pdf

The following information is only for EU-member states:

The mark shown to the right is in compliance with the Waste Electrical and Electronic Equipment Directive 2012/19/EU (WEEE). The mark indicates the requirement NOT to dispose of the equipment as unsorted municipal waste, but use the return and collection systems according to local law.

The mark shown to the right is in compliance with the Waste Electrical and Electronic Equipment Directive 2012/19/EU (WEEE). The mark indicates the requirement NOT to dispose of the equipment as unsorted municipal waste, but use the return and collection systems according to local law.

Declaration of RoHS2 Compliance

This product has been designed and manufactured in compliance with Directive 2011/65/EU of the European Parliament and the Council on restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS2 Directive) and is deemed to comply with the maximum concentration values issued by the European Technical Adaptation Committee (TAC) as shown below:

Substance	Proposed Maximum Concentration	Actual Concentration
Lead (Pb)	0.1%	< 0.1%
Mercury (Hg)	0.1%	< 0.1%
Cadmium (Cd)	0.01%	< 0.01%
Hexavalent Chromium (Cr6 ⁺)	0.1%	< 0.1%
Polybrominated biphenyls (PBB)	0.1%	< 0.1%
Polybrominated diphenyl ethers (PBDE)	0.1%	< 0.1%
Bis (2-ethylhexyl) phthalate (DEHP)	0.1%	< 0.1%
Butyl benzyl phthalate (BBP)	0.1%	< 0.1%
Dibutyl phthalate (DBP)	0.1%	< 0.1%
Diisobutyl phthalate (DIBP)	0.1%	< 0.1%

Certain components of products as stated above are exempted under the Annex III of the RoHS2 Directives as noted below:

- Copper alloy containing up to 4% lead by weight.
- Lead in high melting temperature type solders (i.e. lead-based alloys containing 85% by weight or more lead).
- Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound.
- Lead in dielectric ceramic in capacitors for a rated voltage of 125V AC or 250V DC or higher.

ENERGY STAR Statement

ENERGY STAR is a U.S. Environmental Protection Agency voluntary program that helps businesses and individuals save money and protect our climate through superior energy efficiency. Products that earn the ENERGY STAR prevent greenhouse gas emissions by meeting strict energy efficiency criteria or requirements set by the U.S. Environmental Protection Agency.

As an ENERGY STAR Partner, ViewSonic is determined to meet the Energy star Guidelines and mark all certified models with the ENERGY STAR logo.

The following logo appears on all ENERGY STAR-certified models:

Note: The power management features significantly reduce energy consumption when the product is not in use. Power management allows the device to automatically enter a low power “sleep” mode after a defined period of inactivity. And the power management features also enter Sleep Mode or Off Mode within 5 minutes of being disconnected from a host computer. Please note any change in energy settings will increase energy consumption.

Indian Restriction of Hazardous Substances

Restriction on Hazardous Substances statement (India). This product complies with the “India E-waste Rule 2011” and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 weight % and 0.01 weight % for cadmium, except for the exemptions set in Schedule 2 of the Rule.

Limited Warranty

ViewSonic® Smart White Board

What the warranty covers:

ViewSonic® warrants its products to be free from defects in material and workmanship during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic® will, at its sole option, and as your sole remedy, repair or replace the product with a similar product. Replacement Product or parts may include remanufactured or refurbished parts or components. The repair or replacement unit or parts or components will be covered by the balance of the time remaining on the customer's original limited warranty and the warranty period will not be extended. ViewSonic® provides no warranty for any third-party software whether included with the product or installed by the customer, installation of any unauthorized hardware parts or components (e.g. Projector Lamps). (Please refer to: "What the warranty excludes and does not cover" section).

Who the warranty protects:

This warranty is valid only for the first consumer purchaser.

What the warranty excludes and does not cover:

- Any product on which the serial number has been defaced, modified, or removed.
- Damage, deterioration, or malfunction resulting from:
 - » Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, or failure to follow instructions supplied with the product.
 - » Repair or attempted repair by anyone not authorized by ViewSonic®.
 - » Damage to or loss of any programs, data, or removable storage media.
 - » Normal wear and tear.
 - » Removal or installation of the product.
- Software or data loss occurring during repair or replacement.
- Any damage of the product due to shipment.
- Causes external to the product, such as electric power fluctuations or failure.
- Use of supplies or parts not meeting ViewSonic's specifications.
- Failure of owner to perform periodic product maintenance as stated in the User Guide.
- Any other cause which does not relate to a product defect.

- Damage caused by static (non-moving) images displayed for lengthy periods of time (also referred to as image burn-in).
- Software - Any third-party software included with the product or installed by the customer.
- Hardware/Accessories/Parts/Components – Installation of any unauthorized hardware, accessories, consumable parts or components (e.g. Projector Lamps).
- Damage to, or abuse of, the coating on the surface of the display through inappropriate cleaning as described in the product User Guide.
- Removal, installation, and set-up service charges, including wall-mounting of the product.

How to get service:

- For information about receiving service under warranty, contact ViewSonic® Customer Support (Please refer to the “Customer Service” page). You will need to provide your product’s serial number.
- To obtain warranty service, you will be required to provide: (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
- Take or ship the product, freight prepaid, in the original container to an authorized ViewSonic® service center or ViewSonic®.
- For additional information or the name of the nearest ViewSonic® service center, contact ViewSonic®.

Limitation of implied warranties:

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

Exclusion of damages:

ViewSonic's liability is limited to the cost of repair or replacement of the product. ViewSonic® shall not be liable for:

- Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
- Any other damages, whether incidental, consequential or otherwise.
- Any claim against the customer by any other party.
- Repair or attempted repair by anyone not authorized by ViewSonic®.

Effect of state law:

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow limitations on implied warranties and/or do not allow the exclusion of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

Sales outside the U.S.A. and Canada:

For warranty information and service on ViewSonic® products sold outside of the U.S.A. and Canada, contact ViewSonic® or your local ViewSonic® dealer.

The warranty period for this product in mainland China (Hong Kong, Macao, and Taiwan Excluded) is subject to the terms and conditions of the Maintenance Guarantee Card.

For users in Europe and Russia, full details of warranty provided can be found at: <http://www.viewsonic.com/eu/> under "Support/Warranty Information".

Mexico Limited Warranty

ViewSonic® Smart White Board

What the warranty covers:

ViewSonic® warrants its products to be free from defects in material and workmanship, under normal use, during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic® will, at its sole option, repair or replace the product with a like product. Replacement product or parts may include remanufactured or refurbished parts or components & accessories.

Who the warranty protects:

This warranty is valid only for the first consumer purchaser.

What the warranty excludes and does not cover:

- Any product on which the serial number has been defaced, modified or removed.
- Damage, deterioration, or malfunction resulting from:
 - » Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, unauthorized attempted repair, or failure to follow instructions supplied with the product.
 - » Causes external to the product, such as electrical power fluctuations or failure.
 - » Use of supplies or parts not meeting ViewSonic®'s specifications.
 - » Normal wear and tear.
 - » Any other cause which does not relate to a product defect.
- Any product exhibiting a condition commonly known as “image burn-in” which results when a static image is displayed on the product for an extended period of time.
- Removal, installation, insurance, and set-up service charges.

How to get service:

For information about receiving service under warranty, contact ViewSonic® Customer Support (Please refer to the attached “Customer Service” page). You will need to provide your product’s serial number, so please record the product information in the space provided below on your purchase for your future use. Please retain your receipt of proof of purchase to support your warranty claim.

For Your Records

Product Name: _____ Model Number: _____
Document Number: _____ Serial Number: _____
Purchase Date: _____ Extended Warranty Purchase? _____(Y/N)
If so, what date does warranty expire? _____

- To obtain warranty service, you will be required to provide (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
- Take or ship the product, in the original container packaging, to an authorized ViewSonic® service center.
- Round trip transportation costs for in-warranty products will be paid by ViewSonic®.

Limitation of implied warranties:

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

Exclusion of damages:

ViewSonic®’s liability is limited to the cost of repair or replacement of the product. ViewSonic® shall not be liable for:

- Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
- Any other damages, whether incidental, consequential or otherwise.
- Any claim against the customer by any other party.
- Repair or attempted repair by anyone not authorized by ViewSonic®.
