

Smart ideas for the bigger picture.

celexon - your specialist
for home cinema and AV solutions

PRODUCT DESCRIPTION

The celexon document camera DK500 is a video camera for recording and presenting documents (books, datasheets) or 3D objects. Thanks to the compact and lightweight housing, the camera is ideally suited for mobile use. The images are captured in Full HD resolution (1920x1080 pixels) and at up to 60 frames per second. A VGA input allows you to connect a computer or laptop and choose to display either its image or the document camera. Thanks to its simple and intuitive menu navigation and minimal installation effort, the celexon document camera DK500 is immediately ready for use (Plug & Play).
