PRODUCT INFORMATION

Discreet headset for a professional appearance!

The uncomplicated handling and the light product weight make the celexon Voice Booster Headset Professional the ideal companion for professional appearances and moderations for events of any kind. Connect the headset to a compatible microphone - now hands and body are free for additional interaction. The flexible metal frame can be individually adapted to the respective wearer and sits comfortably, even during longer use, thanks to the rubber padded ear cups. The directional characteristic "omnidirectional" means that sound is picked up from all directions. The windscreen, which is included in the delivery, acts against tieff requisite sound components caused by wind or pronunciation.
