for home cinema and AV solutions

PRODUCT INFORMATION

The celexon Professional height adjustable display Trolley Adjust-3270MP Portrait with a load capacity of up to 70 kg is perfect for use in different rooms and is suitable for displays from all major manufacturers. The height can be adjusted from 116 - 180cm. The trolley is made of painted steel with 4 heavy duty castors providing smooth movement between locations. The glass plate provides a sturdy base and two of the castors are lockable to protect against unwanted movement. You also have the choice to replace the castors with the provided feet if you do not require the stand to move around.
These trolleys provide practical features such as the glass shelf and integrated cable management, along with a portrait function allowing you to change the orientation of your display quickly and easily.

celexon Professional Adjust-3270MP Portrait
