

celexon™

FOR A SAFE
ENVIRONMENT
CELEXON HYGIENE STATION

MADE IN GERMANY

The new Hygiene Station meets the demand for hygiene and actively supports infection control. Especially in **highly frequented public areas** you can offer your **employees**, customers or visitors a high possibility of **minimizing the risk of infection**.

For maximum infection prevention. The celexon hygiene station features high quality design that's **made in Germany**. It can be integrated wherever you need to be clearly reminded to equip yourself with hygiene articles - **create safety and comfort in your environment**.

The column is opened at a 60° angle to the user. Up to 6 of the **various modules** can be placed next to each other, creating a **360° usable hygiene island**.

All articles and materials come from **regional production** and can be **customised** on request. Please contact us.

You have the choice!

Equip your station with the modules you need and thus **create trust and security for customers and staff**.

Depending on your requirements, you will find modules with disinfectant dispensers for contactless hand disinfection, mouth protection masks, disposable gloves or cloths for surface cleaning. Additionally you have the possibility to connect our **recycling module** for used hygiene products. The **carpet Safezone** makes the recommended minimum distance of 1.5m clearly visible.

Colour selection

Face masks - Dispenser
To protect our those around us

Touchless Disinfection Dispenser
Contactless disinfection

Surface Cleaner - Dispenser
For a purified environment

Handkerchief - Dispenser
For use when required

Disposable Glove - Dispenser
For self and external protection

Hygiene articles available separately.
Dispensers are refillable.

The modular design allows different systems to be made. These can be filled with different hygiene articles, such as gloves or masks. **All this can be made available to the user right at the entrance - with the Hygiene Station from celexon.**

Equip the Hygiene Station according to your needs, the **modular design** allows a wide range of configuration options. Please contact us for **special configurations**.

Goal: The establishment of a standard of hygiene in your environment.

The celexon hygiene station offers you that: presence, hygienic article dispensing and disposal, as well as compliance with the minimum distance

In the past, the topic of **hygiene in daily life** was hardly considered - today it is **THE topic** and it is impossible to imagine our **everyday life** without it.

Solutions for the **hygienic living together of people** are needed and desired in both public and private spaces. With the „Hygiene Station“ celexon offers a modular possibility to equip oneself **quickly and easily** in public spaces with the **essential protective materials**, such as gloves, face masks or disinfectants.

Enable your customers, visitors and employees to have a **hygienic everyday life!**

PROMINENTLY PLACED

Place the Hygiene Station in entrance areas and invite the user to equip himself with necessary protective materials in a simple and uncomplicated way - **for safe cooperation.**
