solvo

Quick Guide

Connect any AV device and any UC platform. Done.

Warning
This equipment should be operated only with the included power supply. To remove power from the equipment safely, remove all power cords from the rear of the equipment, or the desktop power module (if detachable), or from the power source receptacle (wall plug).

Power cords should be routed so that they are not likely to be stepped on or pinched by items placed upon or against them.

Do not defeat the safety purpose of a polarized or grounding-type plug.

A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet. Unplug this apparatus during lightning storms or when unused for long periods of time.

Refer all servicing to qualified service personnel. There are no user-serviceable parts inside. To prevent the risk of shock, do not attempt to service this equipment yourself because opening or removing covers may expose you to dangerous voltage or other hazards. Contact your local Neets reseller or distributor.

If the equipment has slots or holes in the enclosure, these are provided to prevent overheating of sensitive components inside. These openings must never be blocked by other objects.

Do not use this equipment near water.

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture and objects filled with liquids.

Unplug the product before cleaning. Clean only with a dry cloth and not cleaning fluid or aerosols. Such products could enter the unit and cause damage, fire, or electric shock. Some substances may also mar the finish of the product.

Caution
Read these instructions. Read and understand all safety and operating instructions before using the equipment. Keep these instructions.

The safety instructions should be kept for future reference. Heed all warnings. Follow all warnings and instructions marked on the equipment or in the user information. Avoid attachments. Do not use tools or attachments that are not recommended, as they may be hazardous.

FCC Class A Notice
This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.

2. This device must accept any interference received, including interference that may cause undesired operation.

The Class A limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.
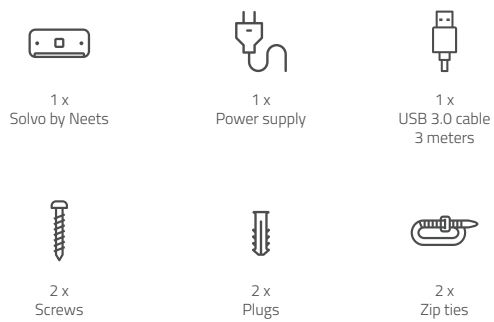

FCC regulations state that any unauthorized changes or modifications to this equipment, not expressly approved by the manufacturer, could void the user's authority to operate this equipment.

3 meters

2 x
Screws

2 x
Plugs

2 x
Zip ties

Mounting options

Wall-mounted with screws and plugs
Attached to mounting brackets with zip ties

USB-B | HDMI | Ethernet cable | 3.5 mm Minijack | USB-A | Power

Laptop | Display | Network | Microphone | Speaker/Soundbar | USB device, e.g., Camera, Interactive board, Microphone or Speaker
To ensure the best compatibility go through the following steps in setting up Solvo by Neets:

1 Disconnect mains power to the equipment

2 Connect all cables to Solvo

3 Reconnect mains power to all connected equipment.

If your setup does not work, please refer to the dIsplay manual to enable CEC control.

Getting started

1 Connect USB cable to the laptop

2 When connecting your laptop to Solvo by Neets for the first time, you might have to install the driver for Windows or MAC. The driver is pre-installed on laptops with Windows 10. Find the driver here:
neets.io/solvo-drivers

3 Display and peripheral devices turn on automatically.

4 Launch your desired application and start your meeting

5 Switch presenter during a meeting by unplugging and plugging in to a different laptop

6 Disconnect the USB cable and the devices will automatically turn off after 30 seconds

HDMI-CEC Control

Make sure that HDMI-CEC is enabled in the menu of the display that Solvo by Neets is connected to. There are different trade names for HDMI-CEC, depending on the device manufacturer. The most common names are listed below.

LG | SimpLink
Panasonic | VIERA Link or HDAVI Control or EZ-Sync
Philips | EasyLink
Samsung | Anynet+
Sony | BRAVIA Link or BRAVIA Sync

You can find more product information, how-to guides, and troubleshooting about HDMI-CEC here.
