

Video peripherals for Airtame Hub

In order to run video conferencing calls on Airtame Hub from a meeting room, it will need to be connected to a camera, microphone and a speaker device. We strongly recommend using an integrated microphone+speaker system with echo cancellation and selecting the same device for audio input and output when configuring Airtame Rooms. Airtame Hub can interact with 1 camera, 1 speaker, and 1 microphone device at a time but not two or more devices of the same class simultaneously (Example - 2 cameras cannot be utilized when connected directly to Airtame Hub)

Airtame Hub has three USB 3.0 ports available for connecting video and audio devices (2x USB-A and 1x USB-C) and the device supports a very wide range of products. Each USB port provides 4.5W of output power. Most products that comply with the USB 2.0/3.0 standard and USB Video Class (UVC) and USB Audio Class (UVA) protocols will be supported by Airtame Hub.

Compatible

The following list of compatible devices have been tested with Airtame Hub either by Airtame or a partner and found to work with the given firmware version. Please see notes for further details on limitations or known issues.

Vendor	Product	Device Type	Firmware	Remarks
Logitech	Meetup	All-In-One Video Bar	1.0.251	RightSight, RightSense, and Sync are not available with Airtame Hub
Logitech	Rally / Rally Plus	All-In-One Video Conference System	1.1.148	RightSight, RightSense, and Sync are not available with Airtame Hub
Logitech	Group	All-In-One Video Conference System	9.4	
Logitech	C930e	Camera and Microphone	8.1.31	
Poly	Studio USB	All-In-One Video Bar	1.5.0.000896	

AVer	VC520 Pro	All-In-One Video Conference System	0.0.1006.14	
AVer	VB342+ Bar	All-In-One Video Bar	0.0.0004.08	
Bose	VB1	All-In-One Video Bar	1.2.38_1feb76	Low power mode must be turned off either via the Bose Work Configuration app, WebUI or Bose Work Management App to ensure that the camera works on Airtame Hub.
Jabra	Speak 710	Speakerphone	1.38.0	
Jabra	Panacast	Camera and Microphone	1.3.9.15	
Huddly	IQ	Camera and Microphone	1.5.4-116286	
Owl Labs	Meeting Owl	All-In-One Video Bar	0.0.0.1	
Epos	SP 30 T	Speakerphone		
Yealink	UVC84-BYOD	All-In-One Video Conference System	262.423.0.25	
Yealink	UVC40	All-In-One Video Bar	128.410.0.30
