

Yealink Full-Coverage Microphone Technology

Bounded Room, Boundless Sound

Traditional Microphone Deployment Challenges

Cable clutter caused by complicated wired deployment

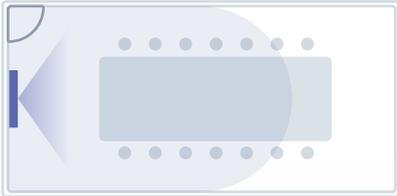

Unavailable for 100% full-coverage voice pick-up

Hard to meet the demand of different table shapes & room sizes

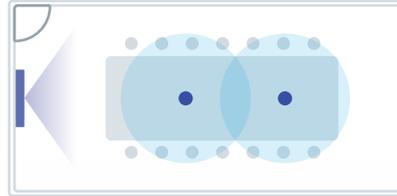

MicLink Microphone Expansion Technology

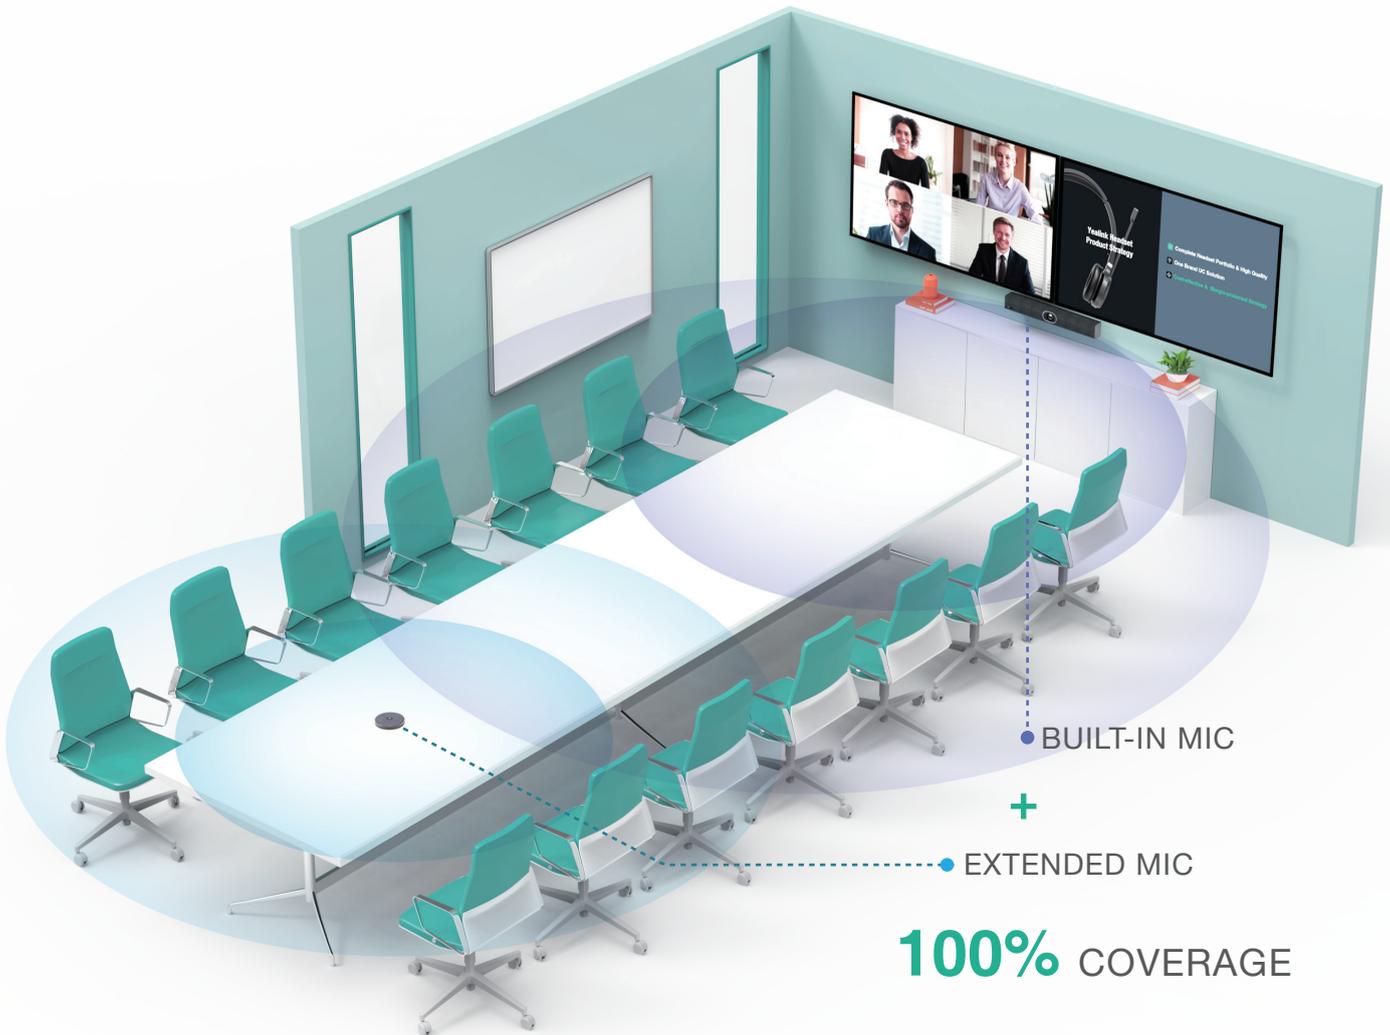

Make 100% voice pick-up possible with built-in mic & extended mic both working simultaneously

Built-in Mic
70% Coverage

Extended Mic
80% Coverage

Benefits

- 100% voice pick-up coverage to capture everyone and every sound
- Easier and quicker cable-free deployment for more simplified and professional workspace style
- Flexible deployment for meeting tables in any shapes or sizes by setting extended mic freely

Cutting-Edge Microphones for Full Scenarios

Make every choice the best choice for your space
