\*\* An Android TV dongle is required. The dongle

An Android To Vongle's required. The dongle comes as standard.

While this model supports Android TV via a dongle included by Acer, it's important to note that the Android service is not developed or maintained by Acer. Therefore, the use of Android TV and any associated third-party apps or services is subject to the terms and conditions of Google and the app developers. It is advised to carefully review these terms and

conditions before using the Android TV service.

### Laser/LED Hybrid Lighting

The projector adopts advanced laser/LED hybrid light source and creates only the exact color needed, thus using less power and is much brighter. Up to  $48\%^{\circ}$  of power are saved compared to lamp-based projector to generate same level of brightness. The power-saving technology provides more options to reduce our carbon footprint.

# Smart Projector

# Smart Projector (Android TV\*\*)

The Smart Projector makes it incredibly simple for users to link their preferred streaming platforms and applications directly to the device. Additionally, the projector includes an Android TV mini dongle that is integrated seamlessly, ensuring a sleek and compact setup that enables users to enjoy Google's entire eco-system to the fullest.

### 1080p 240Hz

1080p 240Hz could present complete 240 frames in 1 second, thus moving scenes can be ultra-smooth even in fast moves. This prevents unwanted flickering, making it ideal for watching the big game or action movies.

# **Vero Series Projector**
