InstaShow® VS10

Wireless Video Conferencing System

InstaShow® VS10 wireless videoconferencing system is an ideal choice for hybrid huddle room meetings. As a BYOD and BYOM device, it improves interactive collaborations by facilitating wireless presentation.

The BenQ VS10 system offers seamless **plug-and-play** screen sharing during meetings. By installing advanced BenQ software, you can integrate it with your room audiovisual system to facilitate hybrid video conferences.

The **switchable USB cable** allows for easy switching between USB Type-C or Type-A cables for the button.

Touchback features allows you to control the sharing content right from the display, improving collaborations.

BenQ

General	
Model Name	VS10
Interface	USB type C (With two spare cables: USB Type-A and HDMI)
Output Resolution	up to 1920×1080 60fps
Split Mode	2 split mode (on/off)
Simultaneous Connections	32 pcs
Wifi Standard	IEEE 802.11ac, 5G, 2T2R , 4T4R, IEEE 802.11n, 2.4GHz 5GHz, 2T2R
Maximum Data Rate	Up to 867Mbps + 300Mbps (at 5GHz + 2.4GHz at 802.11n)
