

MA270S | 27" 5K Nano Gloss Monitor for Mac Creators

## Show Mac Colors, in Every Pixel

Every pixel captures your creative vision in 5K clarity, revealing design in every nuance. A seamless extension of your Mac workspace, it expands how you create, connect, and see the world.

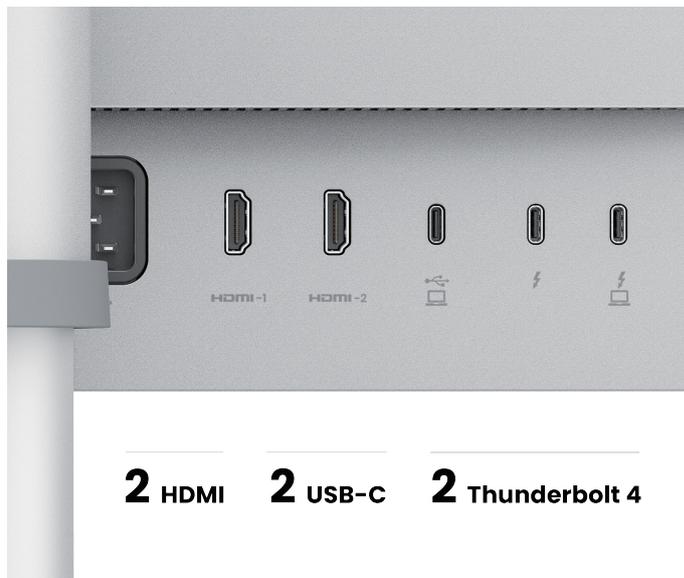

### Expand Your Vision

See more of your timeline, your creative space, your world. Up to dual 5K display support lets you see every detail with room to think and create.

### Two Systems. One Control.

Switch between starting ideas and final touches without breaking your flow. With the built-in Smart KVM switch, your MacBook and Mac Studio feel like one system. One keyboard. One mouse. One seamless workflow.

### We Adjust Easily. You View Comfortably.

No more bad posture. BenQ's best monitors for MacBook Pro and MacBook Air go beyond screen limitations, offering greater freedom with multiple angles and height adjustments for an improved viewing experience.

### Connect More. Create More.

Creators don't work with one device, and your monitor shouldn't either. Charge your MacBook with 96W Thunderbolt 4, keep your iPad/iPhone powered with 15W, and plug in drives via USB-C and consoles via HDMI.
