Acoustic Protection Technology ⁴	SoundGuard Digital

1. On-device AI reduces typical background noises, allowing the user to be heard clearly improving the overall user experience.
2. Post-consumer recycled plastic is expressed as a percentage of the total weight of plastic.
3. HP paper-based packaging is reported by suppliers as recycled or certified, with a minimum of 97% by volume verified by HP. Packaging includes box and inserts.
4. HP Poly SoundGuard Digital includes G616 anti-startle protection which limits the noise level to below 102 dB SPL and is compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; HP Poly owned proprietary Advanced Audio Limiter, compliant to ACIF G616; and Average Daily Noise Exposure that measures and controls sound to prevent the Average Daily Noise Exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA). HP Poly Studio App is required to enable SoundGuard Digital features. HP Poly SoundGuard protects against Acoustic Shock by limiting sounds to below 118 dBA. This feature is enabled by default and is not a user configurable feature.
5. TCO Certified is a global sustainability certification for IT products. Compliance with all criteria is independently verified
