Proximity® Lever Lock™ Plate for PAC526/PAC527L In-Wall Storage Box **SKU: PACL2**

The PACL2 Lever Lock™ plate enables secure attachment of AV equipment inside the PAC526 and PAC527L In-Wall Storage Box. Install the included mounting brackets in the PAC526 or PAC527L In-Wall Storage Box then slide in the tool-less Lever Lock™ plate inside the box. The PACL2 Lever Lock™ plate can be mounted on four different levels to easily organize and layer components within the in-wall box.

Lever Lock™ plates are compatible with Middle Atlantic Products' Forward Cable Management Solutions.

- Patented universal hole pattern simplifies mounting of small devices
- Allows for components to be mounted in advance before terminating cables on site
- For electrical safety the new Lever Lock™ plates are black zinc plated which allows them to be grounded to the in-wall box via the spring-loaded lever

Specifications
