

NETKIT-RS

NETKIT-Ethernet to RS232 convertor

NETKIT-RS makes it possible to design and integrate a low-cost custom control system for Apart products and other devices with serial control possibilities. It allows easy integration with pc, Mac, iPhone/iPad and Android devices via freely available software applications. Now you can seamlessly connect a laptop and control any serial device. You can use third party software to operate the Netkits via home control units, tablets or smartphones.

This product allows a custom user interface to be designed and uploaded to an iPad or similar device.

Many Apart products can be controlled via NETKIT-RS via serial control interface, including SDQ5PIR, PM1122 (with PM1122INT), CONCEPT1, CHAMP-3D, ZONE4, AUDIOCONTROL12.8, PR4000R, PR1000R, PCR3000RMKII and PC1000RMKII. Apart have developed the Command Fusion guiDesigner library files for all controllable Apart products. These files are available on request.

NETKIT-RS provides a new level of automation and control flexibility, enabling device networking in your home, hotels, restaurants, meeting rooms and many other applications.

TECHNICAL SPECIFICATIONS

ethernet connection	10/100 Mbit/s	integrated web server	yes
DHCP compatible	yes	ethernet connector	RJ45
included power supply	5-16Vdc 300mA	output connector	male D89 serial
serial speed	1200 -115000 Bd	bi directional	yes, with RTS/CTS flow control
IR receiver for IR learning	no	free software	Netkit Help
width in mm	82.5	height in mm	31.8
depth in mm	57.2	weigth (ex power supply) in gr	92
Net weight product (kg)	0,20
