

1. Important Safety Instruction

1.1 Safety precautions and maintenance

Safety precautions and maintenance(English)

Warnings

Use of controls, adjustments or procedures other than those specified in this documentation may result in exposure to shock, electrical hazards and/or mechanical hazards.

Read and follow these instructions when connecting and using your computer monitor.

Excessive sound pressure from earphones and headphones can cause hearing loss. Adjustment of the equalizer to maximum increases the earphones and headphones output voltage and therefore the sound pressure level.

For models without AC switches:

The power outlet should be installed near the equipment, if it is pluggable, for easy access.

Note

- To prevent possible hearing damage, do not listen at high volume levels for long periods.
- We recommend you switch off the monitor when it is not in use for a long time.

Operation

- Remove any object that could fall into ventilation holes or prevent proper cooling of the monitor's electronics.
- Do not block the ventilation holes on the cabinet.

- Operate under the specified power supply. Be sure to operate the monitor only with the specified power supply. Use of an incorrect voltage will cause malfunction and may cause fire or electric shock.
- The USB Type-C port could only be connected to specify equipment with fire enclosure in compliance with IEC 62368-1 or IEC 60950-1.

Maintenance

- To avoid the risk of shock or permanent damage to the set, do not expose the monitor to dust, rain, water, or excessive moisture environment.
- In order to maintain the best performance of your monitor and use it for a longer lifetime, please use the monitor in a location that falls within the following temperature and humidity ranges. (In case of any conflict between the information and the manual, please refer to the manual.)
 - Temperature: 0 °C~40 °C 32 °F~104 °F
 - Humidity: 20% RH~80% RH
 - Altitude : 0 m~5000 m(0 ft~16404 ft)
- Please confirm the distribution system in building installation shall provide the circuit breaker rated 120/240V, 20A (maximum).
- If provided with a 3-pin attachment plug on the power cord, plug the cord into a grounded (earthed) 3-pin outlet. Do not disable the power cord grounding pin, for example, by attaching a 2-pin adapter. The grounding pin is an important safety feature.

Caution(Applicable models with battery)

- Replacement of a battery with an incorrect type that can defeat a safeguard;
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
- Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
- A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.
- Risk of fire or explosion if the battery is replaced by an incorrect type

Caution(Applicable models with coin/button cell batteries)

- Do not ingest battery, Chemical Burn Hazard.
- This product contains a coin / button cell battery. If the coin / button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
- Keep new and used batteries away from children.
- If the battery compartment does not close securely, stop using the product and keep it away from children.
- If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Stability Hazard.

The product may fall, causing serious personal injury or death. To prevent injury, this product must be securely attached to the floor/wall in accordance with the installation instructions.

A product set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- ALWAYS use cabinets or stands or installation methods recommended by the manufacturer of the product set.
- ALWAYS use furniture that can safely support the product.
- ALWAYS ensure the product is not overhanging the edge of the supporting furniture.
- ALWAYS educate children about the dangers of climbing on furniture to reach the product or its controls.
- ALWAYS route cords and cables connected to your product so they cannot be tripped over, pulled or grabbed.
- NEVER place a product in an unstable location.
- NEVER place the product on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the product to a suitable support.
- NEVER place the product on cloth or other materials that may be located between the product and supporting furniture.
- NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the product or furniture on which the product is placed.

- If the existing product is going to be retained and relocated, the same considerations as above should be applied.

Wall Mount Installation Instructions (Applicable to Models with Wall Mount Installation Function)

This product package does not contain any wall mount spare parts. If wall mount installation is required, please be sure to contact the manufacturer.

| | |
|---------------------------------|---|
| Wall mount hole spacing | 75mm x 75mm, 100mm x 100mm, 200mm x 100mm or 200mm x 200mm (please refer to the corresponding product specifications for details) |
| Quantity of wall mount screws | 2 or 4 pieces (please refer to the corresponding product specifications for details) |
| Wall mount screw specifications | M4 or M6 (please refer to the corresponding product specifications for details) Thread depth 8 mm, 10 mm or 12 mm (please refer to the corresponding product specifications for details) |

EU Battery Regulation

For EU: The crossed-out wheeled bin implies that used batteries should not be put in the general household waste! There is a separate collection system for used batteries, to allow proper treatment and recycling in accordance with legislation.

Please contact your local authority for details on the collection and recycling schemes.

For Switzerland: The used battery is to be returned to the selling point.

For other non-EU countries: Please contact your local authority for correct method of disposal of the used battery.

According to Regulation (EU) 2023/1542, the battery can't be disposed improperly. The battery shall be separated to collect by local

service.

Após o uso, as pilhas deverão ser entregues ao estabelecimento comercial ou e/ou baterias rede de assistência técnica autorizada.

The chemical symbol for lead (Pb) is added under this symbol if the battery(ies) contains more than 0.004 % lead.

- Keep the remote control and the battery out of reach of children.
- The remote control supplied with this product contains a coin / button cell battery. If the coin / button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
- If the remote control will not be used for an extended period of time, remove the battery.

To install or replace batteries:

1. Press and then slide the cover to open it.
2. Align the batteries according to the (+) and (-) indications inside the battery compartment.
3. Replace the cover.

Note

The incorrect use of batteries can result in leaks or bursting. Be sure to follow these instructions:

- Place “AAA” batteries matching the (+) and (-) signs on each battery to the (+) and (-) signs of the battery compartment.
- Do not mix battery types.
- Do not combine new batteries with used ones. It causes shorter life or leakage of batteries.
