

Safety Precautions

DANGER

- Failure to comply with these safety precautions results in death or serious injury;
- ELECTRICAL SHOCK HAZARD! Always turn off, disconnect, and disengage all power sources to the projector before servicing;

WARNING

Failure to comply with these safety precautions may result in serious injury.

- At least two qualified people should perform the installation procedure. Personal injury and/or property damage can result from dropping or mishandling the projector;
- If mounting to ceiling studs, make sure that the mounting screws are anchored into the center of the ceiling studs. Use of an edge-to-edge stud finder is recommended;
- Be aware of the mounting environment. If drilling and/or cutting into the mounting surface, always make sure that there are no electrical wires in the wall;
- Do not install near sources of high heat. Do not install on a structure that is prone to vibration, movement or chance of impact.

INSTALLATION SAFETY

KITE can only be used by skilled staff who also have the authorization to TRANSPORT, INSTALL and ADJUST the projector in complete safety based on the necessary knowledge and competence.

In order to avoid injuries, it is necessary to comply with the following safety rules:

- Use ELPMB84 with a projector only in environments which are not exposed to weather events.
- Make sure the projector is compatible with the cage on which it is fitted, as using incompatible projectors could cause serious damages and injuries.
- Do not place ELPMB84 on: unstable surfaces, walls or unsuitable structures.
- For STACKING, make sure all safety PINS are fastened with their safety locks, then make sure all nuts are tightened correctly onto the threaded PINS.
- Do not mount ELPMB84 or the projector when people are standing underneath the installation area.

- Always fasten ELPMB84 to the TRUSS with a steel safety cord using the specific eyelets: in case of fault or failure, the cord must ensure the cage not to be falling down lower than 5 cm.
- Please read the local rules and regulations to comply with any possible additional safety rules for hanging loads.
- Before mounting the projectors on ELPMB84, carefully read the user's manual for both products.
- If the projector is equipped with an additional lens, make sure it is removed during the installation process.
- At least 2 people are required to install ELPMB84.
- To avoid any risks during assembly and disassembly process:
 - Wear gloves, helmet and suitable safety shoes,
 - Make sure the underlying area is cleared and free.
- Carefully follow the instructions described in the manual for STACKING ELPMB84.
- Do not stack more than 3 ELPMB84 on the floor and no more than 2 hanging.

The supporting structures and their components must be certified to support the cage and projector weight.
